PLANNING FOR YOUR FUTURE

A Study of Superuniverse Government Rulers

From the Urantia Book

For those of you who wish to follow the study technique that the Urantia Book suggests, perhaps you will find pleasure in joining us in a brief study of the government of our superuniverse. For many years our Santa Monica group has been trying to follow the rules of the superhuman revelators of the Urantia Book concerning methods of study.

We have studied the Sources and Centers, the absolute and absonite levels, the Seven Absolutes of Infinity, the Trinities and Triunities, the cosmography, the experiential Gods, the ultimate level, the mortal ascension plan up through the present day finaliters, —and we are certain that we have been helped enormously in understanding our present day situations, in our personal problems, —and in perceiving the concepts of the <u>finite</u> level. Most cartainly many things that Jesus talked about, we could not have comprehended had we not first acquainted ourselves with these higher level concepts.

The revelators have told us that EVIL is inherent in a segmentalized conception of reality and divinity. They explain that the human mind craves to approach cosmic philosophy in the Urantia revelations ——"by proceeding from the <u>simple</u> and the <u>finite</u> —to the complex and the infinite, from <u>human</u> <u>origins</u> to divine destinies". "But that path does <u>not</u> lead to spiritual wisdom". "Such a procedure is the easiest path to a certain form of genetic knowledge, but at best it can only reveal man's origin; it reveals little or nothing about his divine destiny". "..there are grave objections to the exclusive historic approach to his presentday status and his current problems". (215:2,3)

"When the human mind undertakes to follow the philosophic technique of starting from the <u>lower</u> to approach the higher, whether in biology or theology, it is ALWAYS IN DANGER of committing FOUR errors of reasoning: (1) It may utterly <u>fail</u> to perceive the final and completed evolutionary goal of either personal <u>attainment</u> or cosmic <u>destiny</u>. (2) It may commit the supreme philosophical <u>blunder</u> —by oversimplifying cosmic evolutionary (experiential) reality, —thus leading to the distortion of facts, —to the perversion of truth, —and to the misconception of destinies. (3) The study of causation <u>IS</u> the perusal of history. But the knowledge of <u>HOW</u> a being <u>becomes</u> does not necessarily provide an intelligent understanding of the PRESENT status and TRUE character of such a being. (4) History alone fails adequately to reveal development—destiny. "..only divine causes reveal <u>final</u> effects. Eternal endings are not shown in time beginnings. The present can be interpreted <u>only</u> in the light of the past and future". (215:4-8)

"Therefore because of these and for still OTHER reasons do <u>WE</u> employ the technique of approaching man and his planetary problems by embarkation on the time-space journey from the infinite, eternal, and divine Paradise Source and Center of ALL personality reality and ALL cosmic existence". (215:9)

While instructing us to start at the <u>TOP</u> in our studies, (from the First Source and Center) — they suggest certain approaches to make it easier for our minds to gain insight into reality and divinity. Following are a few of their suggested study methods:

(164:3) "It is important <u>first</u> to gain an adequate idea of the <u>PHISICAL</u> constitution and <u>MATERIAL</u> organization of the superuniverse domains, for then you will be the better prepared to grasp the significance of the marvelous <u>organization</u> provided for — their <u>spiritual</u> <u>government</u> and for the <u>intellectual</u> advancement of the will creatures who dwell on the myriads of inhabited planets scattered hither and yon throughout these seven superuniverses".

(1162:1) "It is not enough that the ascending mortal should know something of the relations of Deity to the genesis and manifestations of cosmic reality; he should also comprehend something of the relationships existing between <u>himself</u> and the numerous levels of EXISTENTIAL and experiential realities, of <u>potential</u> and actual realities. Man's terrestrial orientation, his cosmic insight, and his spiritual directionization are all enhanced by a better comprehension of universe realities and their <u>techniques</u> of interassociation, integration, and unification".

(1295:1) "It is helpful to man's cosmic orientation to attain all possible comprehension of <u>Deity's relation</u> to the cosmos. While absolute Deity is eternal in nature, the God's are related to time <u>AS AN EXPERIENCE</u> in eternity. In the evolutionary universes eternity is temporal everlastingness —— the everlasting NOW".

(449:3) "The narrative of human ascent from the mortal spheres of time to the divine realms of eternity constitutes an intriguing recital not included in my assignment, —but this supernal adventure should be the <u>supreme</u> study of mortal man". (By a Mighty Messenger).

(481:#11:1) "The First Source and Center is the primal <u>CAUSE</u> of all materialization, and at the same time the first and final FATHER of all spirits. The Paradise Father appears personally in the extra-Havona universes only as pure energy and pure spirit----- as the Thought Adjusters and other similar fragmentations".

If you but show your Adjuster that you are truly desirous of the knowledge of the high levels and wish to follow the suggested methods of study, he will be delighted and will somehow reveal to you, -all things, as questions come to your mind. You must look to <u>HIM</u> for your insight and understanding.

RE: SUPERUNIVERSE GOVERNMENT HEADQUARTERS

Government work is apparently the goal of all mortal ascenders. We shall acquaint ourselves first, with the <u>center</u> of operations and authority since there are vast branches of the main branch of government, and each must be studied in part.

The government headquarters are in Uversa, the capital of our superuniverse of Orvonton. What sort of place is Uversa and what kind of government do they run?

(175:1) Uversa consists of SEVEN <u>clusters</u> of wonder spheres. Each of the seven clusters consists of seventy specialized worlds, <u>490</u> in all. There are thousands upon thousands of replete institutions and organizations devoted to advanced universe training and spirit culture for ascenders, where they are re-educated and re-examined for flight to Havona. All of these clusters of spheres immediately surround Uversa—the capital headquarters of Orventon.

Uversa is the SPIRITUAL and ADMINISTRATIVE headquarters for approximately one trillion inhabited worlds. The glory, grandeur, and perfection of the Orvonton capital surpass any of the wonders of the time-space creations.

(178:#10) "The headquarters of the superuniverses are the seats of the <u>HIGH SPIRITUAL</u> government of the time-space domains. The executive branch of the government, taking origin in the Councils of the Trinity, is immediately directed by <u>ONE</u> of the SEVEN MASTER SPIRITS of supreme supervision, -beings who sit upon seats of Paradise authority, and administer the superuniverses <u>THROUGH</u> the <u>Seven Supreme Executives</u> stationed on the seven special worlds of the Infinite Spirit". Thus, with the services of the Reflective Spirits stationed at the superuniverse headquarters, -Paradise law-JUSTICE- is applied.

Before listing the names as they are presented in the Urantia Book on page 178 we can best get a comprehensive idea of the tremendous variety of personalities involved, -their peticular capacities and endowments, experiential acquisitions etc; --personalities from everywhere in the universe---- by observing these groups in the 'CONTENTS OF THE BOOK'.

Turn to page XVII

PAPER 17 Under "THE SEVEN SUPREME SPIRIT GROUPS" put a little circle around number '4'.

- The Reflective Image Aids are the <u>only</u> group of the Seven Supreme Spirit Groups that are listed in the immediate headquarters government.
- In the margin at the left of the circle around no.4 write the abbreviation S/U Gov't. ----(superuniverse government).

- PAPER 18 "THE SUPREME TRINITY PERSONALITIES" -- put a bracket in front of the numbers 2through 7 inclusive. (The first group is not a direct participant in S/U Gov't) In front of the bracket write- S/U Gov't.
- PAPER 19 "THE CO-ORDINATE TRINITY ORIGIN BEINGS"--- put a bracket in front of numbers 1through 4 inclusive and mark it-- S/U Gov't.
- PAPER 22 "THE TRINITIZED SONS OF GOD". Although all Trinity-Embraced Sons are forever devoted to Trinity service AND assignment, --only three of this group are listed in the main executive branch of the Co-ordinate Council at headquarters. So we will put a bracket in front of numbers 2,3,4, and mark them S/U Gov't.

Now we can chart the superuniverse government as it is described on pages 178, 179. This will help us to remember the organization. After arranging the picture in our minds we can then read about these various groups, identify them, -and see how a broad scope of personalities are associated in a spiritual government. There is good reason for the perfect functioning of this enormous organization.

Let us first look into universal law.

What is the origin of law and how does law reach the superuniverses?

(114:#6:1-4) ALL LAW takes origin in the First Source and Center. HE IS LAW.

Administration of SPIRITUAL law inheres in the Second Source and Center.

The revelation, promulgation, and interpretation of divine statutes (law) -is the function of the Third Source and Center.

The application of law _____JUSTICE _____falls within the province of the PARADISE TRINITY.

Justice is inherent in the sovereignty of the Paradise Trinity.

Justice is NOT the attitude of the Father, Son, and Spirit.

Justice is the TRINITY attitude. (We might presume to call it the will of the Trinity).

Justice is not fostered by any one of the Paradise Deities.

Justice is never a personal attitude.

Justice is always a PLURAL function, --- (applied law).

Justice is the <u>collective</u> thought of righteousness. <u>MERCY</u> is its <u>personal</u> expression, an attitude of love. (Goodness, mercy, and truth, —are the universe ministry of the divine personalities that go to make up the Trinity).

Justice is divine judgement, -- the divine love of God.

JUDGEMENT is the final application of JUSTICE.

As law is revealed and interpreted by Infinite Spirit to the Seven Master Spirits who administer the law through the Seven Supreme Executives, ——who in turn, execute the law and see that it is carried out in the universes by certain Sons of the Trinity——— "The Stationary Sons of the Trinity".

76:#4:1 THE ETERNAL SON -motivates the SPIRIT level of cosmic reality. He exercises perfect <u>control</u> over the interassociation of all <u>undifferentiated</u> spirit energy, and over all ACTUALIZED spirit reality.

All pure —unfragmented — spirit, —and all spiritual <u>VALUES</u> AND <u>BEINGS</u> are responsive to the infinite drawing power of the Primal Son of Paradise. 2661#2 <u>THE CENSUS DIRECTORS</u> -function under jurisdiction of Ancients of Days. Census data is native for superuniverse only. (Not for Havona nor Paradise records.)

- 275:#2 THE UNIVERSAL CONCILIATORS -traveling small claims courts. Keep universe running smoothly. Quick adjudication of minor difficulties of realms.
- 278:3-7 In minor sectors: -are mercy-justice interpreters. In major sectors: explainers of mysteries. In superuniverses: teachers of ascending pilgrims.
- 279:#4 TECHNICAL ADVISORS -more than legal experts. Living law libraries. Are students and teachers of applied law. Closely associated with the Universal Censors. They interpret -physical, mindal, and spiritual LAWS.
- 281:#6 THE CELESTIAL RECORDERS -ascendant seraphim. Received, classified, and assigned to spheres by councils of Chiefs of Records on Uversa. 'Celestial Recorder' schools are conducted by the <u>Perfectors of Wisdom</u> and the <u>Divine Counselors</u>.

306:Intro: Ministering Spirits of the Superuniverses:

- 306:#1 THE TERTIAPHIM -created by Infinite Spirit. Residents of superuniverse capitals. Accompany Creator Son in new universe organization. Then liaison ministers.
- 307:#2 THE OMNIAPHIM -created by Infinite Spirit in liaison with the Seven Supreme Executives. Are exclusive messengers of same Supreme Executives. Occupied with the oversight of superuniverses in the interests of administrative co-ordinationfrom the viewpoint of the Seven Supreme Executives.
- 307:#3 THE SECONAPHIM -created by the <u>SEVEN REFLECTIVE</u> <u>SPIRITS</u>. By a Paradise technique <u>each</u> group of seven is <u>always</u> created with: <u>ONE</u> primary angel; <u>THREE</u> secondary angels; and <u>THREE</u> tertiary angels.
- 307:#4 The Primary Seconaphim -assigned to the Ancients of Days; are living mirrors of the service of the Ancients of Days. They interpret the mind of the Spirit ----to the Ancients of Days.
- 310:#5 The Secondary Seconaphim (equally reflective) Primary, Secondary, and Tertiary does not indicate 'status'—but merely orders of procedure. Are assigned to the ASSOCIATES of the Ancients of Days:—
 First three of this order—are assigned to the Perfectors of Wisdom. Next three—assigned to the Divine Counselors.

Last order (the Discerners of Spirit) assigned to the Universal Censors.

313:#6 The Tertiary Seconaphim -ALL of these "serially" created reflective types of angels are collectively assigned to the <u>TRINITIZED</u> SONS OF <u>ATTAINMENT</u> — (the mortal groups) and are used interchangeably.

We may assume that there are innumerable unrevealed subsidiary corps of beings working for the superuniverse government, but we planetary mortals should now have a rather broad concept of its very complex inner workings.
