Mrs. Marian T. Rowley, Secretary-General
URANTIA BROTHERHOOD
533 Diversey Parkway
Chicago, Illinois 60614

Dear Mrs. Rowley:

Attached you will find a copy of a paper we have just recently finished "LINEAR GRAVITY G_L , THE FORCE-CHARGE OF ISOTROPIC SPACE", which we believe you will find highly interesting. We are sure you remember the early work that we did back in 1957 and 1958 when we presented to you the results of our integrating optical and radio telescope data and the proof of the existence of the arrangements provided in the Urantia Book.

Finally, after all these years, we have gathered enough information to be able to put this picture together in a fairly solid formal mathematical and technical presentation. We feel sure Rev. Meredith J. Sprunger will enjoy reading the paper.

If you care to have additional copies, please let me know.

We would like to order a copy of the Urantia Book, hopefully from the second printing. We do not know what the price would be now, so please let me know. Also, you used to have me on the Urantia Brotherhood Bulletin mailing list, but I did not receive anything during 1971 or this year. Could you reinstate me on the mailing list for these news letters? Also, I believe you have completed a fairly detailed index. If this is now available, I would also like to order a copy of that.

The next time we are in the Chicago area, we hope we will have an opportunity to sit down and talk with you and other members again.

Kindest regards.

Sincerely yours,

A. A. Zachow
