

June 11, 1975

Enclosed is a list of "study group" assignments for the Brotherhood School Workshop of July 26, 1975.

Each person is asked to undertake an intensive and thoughtful consideration of their topic so that we may arrive at our best understanding of what would constitute a Brotherhood School. Appropriate reading materials and discussion with other interested persons would be most helpful.

Each "study group" has a coordinator. Any suggestions or questions you may have relating to your topic should be directed to the group coordinator. The coordinator of your topic will contact you shortly with further details about this study. You should begin to formulate your views on your study topic as soon as possible.

Since all of the Brotherhood School topics are closely interrelated, you may develop thoughts concerning some of the other areas of this study. Your ideas and suggestions concerning any of the study topics of this workshop are strongly encouraged. Communicate your views to the coordinator of the appropriate "study group". They will be incorporated into the report of that group.

Our hope is that everyone will arrive in Chicago in a high state of preparation so that we may have a productive and meaningful discussion. We are all participating in an experimental undertaking in cooperative group activity. When a group of God conscious persons joins together in common and sincere effort, mighty potentials spring into view. Let us try to actualize these potentials to the best of our abilities. It should be an interesting and enlightening experience for all.

Affectionately,

*Steve*
