

DESIRABLE QUALITIES OF A CANDIDATE FOR
URANTIA BROTHERHOOD GENERAL COUNCIL

1. The candidate has been a student of The URANTIA Book for many years.
2. He or she is knowledgeable of the history and structure, the goals and policies, of the various URANTIA organizations.
3. The individual has demonstrated wise leadership in some phase of the URANTIA movement: study group, society, conference organization/speaking/teacher, Brotherhood committee, field representative, Foundation assignment.
4. The Council candidate has been observed over a long period of time to be mature, emotionally stable, co-operative, dependable, creative. He or she is not only able to deliberate and make wise decisions, but also shows forth the fruits of the spirit in interactions with others.
5. This person inspires and demonstrates spiritual and social unity and is supportive of URANTIA Brotherhood/Foundation, having shown over a long period of time the ability to work within the URANTIA Brotherhood constitutional plan for co-operative collaboration. He or she is willing to participate in and abide by group management.
6. He or she could be an effective and valiant defender of The URANTIA Book, URANTIA Brotherhood, and URANTIA Foundation in times of crisis. In all contributions the Council candidate should have the ability to communicate clearly and courageously.
7. He or she shows interest in acquiring knowledge of and relating to people of many religions, philosophies, and walks of life.

BASIC PRINCIPLES FOR GENERAL COUNCIL MEMBERSHIP

8. Outstanding success and experience in a secular field may indicate effectiveness in that area, but should not be allowed to substitute for more basic qualifications such as a thorough knowledge and dedication to the teachings of The URANTIA Book and a detailed and accurate knowledge of Brotherhood history, structure, and policies.

ATAPSU

RESOLUTIONS OF THE GENERAL COUNCIL
1979

9. General Council membership should not be merely a reward for long years of membership in the Brotherhood. Individuals should not be elected because it is "their turn." Nor should persons be reelected to the General Council simply because they have served on it for many years.
10. Individuals should not be elected to the General Council primarily because they have made large financial contributions to the movement. The lack of financial support, however, may require additional thought regarding their priorities or agreement with Brotherhood/Foundation policies and goals.
11. Individuals should be elected to the General Council because of their qualifications rather than because they are geographically close to headquarters or because they are willing to pay their expenses to attend General Council meetings.
12. Relatives or friends of a member of the Executive Committee or other Councilor should be considered for General Council membership only on the basis of their own personal qualifications and their ability to think and act wisely and independently.
13. General Council members are not selected to represent geographical areas or philosophical viewpoints. Nevertheless, in situations where the aforementioned qualities and qualifications appear to be equal, geographic, ethnic, philosophic, or social factors may be a consideration in selection for service.

TO whom it may concern.

I have more to say regarding this application which did not find room on the page attached.

First of all, the "application" for General Councilor looks very much to me as that of an application for a secular position of which it is only a preliminary screening to an interview where those written facts can be embellished through the person applying.

I look forward, hopefully, to the some consideration that would be afforded the applicant for a job as a janitor, for instance.

Secondly, it is my profound conviction that the actions in the secular world of any individual or achievement of said person in business, academia, or their chosen profession only reflects a fraction of that person. What they believe, which I believe is the prime mover of any of us, is only dimly seen from an examination of the facts or actions of a human life.

I therefore petition those who will be deliberating on new General Councilors that personal interviews be used to help determine any persons "qualifications" for that job.

I also wish to state that I understood fully or as completely as I'm able, the responsibilities of a General Councilor and am willing to accept them and fulfill them to the best of my ability.

Your Brother,
Richard E. Voss

For those who don't know me I thought I'd give a brief
biography. I live with my wife Cindy and our 5 boys (ages
1, 4, 7, 9, & 12) in an old Victorian farm house located in
a quiet residential neighborhood in a Kansas City suburb.
I work as an Air Traffic Controller at the Kansas City
En-Route Air Traffic Control Center. Although I am

interested in many things (Molecular biology, travel) I have little time for hobbies other than my main two, child rearing and Urantia Book activities. I have been an avid student of THE URANTIA BOOK since the first time I opened it in 1974 (I even carried it in a back pack up into the Colorado Rockies on my honeymoon). After many years of following the activities of Urantia Brotherhood, I would now like to volunteer for service on the General Council and/or any of the committees that could use my help. I believe that I have good organizational skills and that I work well with groups of people. I also find that in task oriented groups I am often involved in taking ideas and developing a strategy for implementation as well as doing the "nuts and bolts" work to see the project through to completion. I hope that these skills will make me a valuable servant of Urantia Brotherhood.
