Dear David:

The four slides arrived today and they are beautiful. Please find enclosed check. Bryan and I are consumed with curiosity to know how you do this. Bryan knows much more about all this than I do- he learned a lot in Sweden and has a fine camera with attachments. As you can guess my first presentation for the family at Christmas will have certain slides that I won't have in my public or URANTIA group showing. The URANTIA Book showing will be much different as I have the stories of Nalda at the well etc. (where I drank the water and brought some home.)

In reply to your question about separating the four parts I will have to say that Christy and I think the entire Foundation, are all opposed to the idea of ever separating this great Revelation. I often brought up that idea in early years but slowly they convinced me that this Revelation must remain intact in every way. Once you start fragmenting it, many problems may arise of further fragmentation. No it has never been separated. Some of us did have that done personally simply for ease of reading in bed and taking on trips. I took only Part 4 with me to the Mid East. If this doesn't satisfy you I will say more but I know it is not to be.

David there is another approach that I believe is right and very much needed - - that is to really get the URANTIA Books into libraries all over the world. So much work to do! For example all of those big important libraries have English sections. Scholars come from all over the world to use them. A fine scholar like Rodan or Ganid (when he grew up) will find our beautiful URANTIA Book and see that it is translated into their own languages, I have great hopes for China with its some 660 million people. I talked a lot to Ron Louie about this. They have great scholars there and they are opening up. It takes only a few real scholars to interest men of means who have the money to see that it is translated. Of course it would have to go through the proper channels in Chicago- the Foundation for permission.

This came to me so strongly when I prayed in Amman (Philadelphia) with all those million people when the call for prayer came from their minarets. We need to plant the seeds. Maybe they won't sprout in my lifetime nor even yours but they should be planted. Think of the military outposts all over the world. The biggest one is in Weisbaden Germany- land of famous philosophers- *Chicago will send books free! But we must get addresses & place requests.*
Much love to you & three dear people!
Julia
