Dear Dr. Sprunger,

Your "Evaluation" is a truly tremendous contribution to the understanding of the Uranian Book. It seems to me that every study group should begin with it, and then use it as a guide for more detailed study. It will be most useful for people who join a group already part way thru the Book, enabling such late comers to catch up and have some idea of what is being discussed or read. When you come to Chicago Oct. 20, I hope you bring a supply along, if they will become available to non Culverites, for I'll want to buy at least a dozen to start with!

I'm eager to learn of progress your study group is making and of any questions they might have which Charter Committee could answer.

My husband and I are looking forward with much interest to your presentation of "Government on a Neighboring Planet". Meanwhile we are most grateful to have your pamphlet.

Sincerely,
Ruth Burton
