Dr. Meredith J. Sprunger
307 Plymouth St.
Culver, Indiana

Dear Dr. Sprunger:

Ever since you were here I've been intending to write you to ask if I might have a copy of the booklet that Harold Karrer had -- I think it was called "An Evaluation of the Urantia Book." It was a number of pages stapled together. He read a lot of material from it in his kindergarten class. I meant to ask you for a copy when you were here and forgot it.

By the way, I want to call your attention again to an error which you're still carrying although I corrected it on the original chart you made a year or more ago. You still have the names of the major and minor sectors confused with the names of their headquarters worlds. The major sector is Splandon and the capital is Umajor the fifth. The minor sector is Ensa and the capital is Uminor the third. I know it doesn't sound logical, but that's the way it is. See the bottom of page 174. I'm sure you'll want to correct this.

It was go nice to have you here and I hope you can come again soon.

Cordially,

Secretary-General

Marian Rowley
