Miss Marian Rowley
533 Diversey Parkway
Chicago 14, Ill.

Dear Marian:

Thought I better let you know that several people here plan to send in applications for the Brotherhood School. Was surprised they hadn't sent them in already. I haven't encouraged or discouraged any of them; they are acting on their own initiative.

I will not be coming along with them. Dr. Sadler and I had a day-long talk at Beverly Shores recently and I am following his suggestions regarding my relationship to the Brotherhood and Brotherhood School. I am quite content to wait for the slow evolutionary development to see if and when I shall be active in Brotherhood affairs - that is in any kind of official or formal capacity. Best wishes for the School year soon to start.

Sincerely yours,

Meredith
