Dear Dr. Sadler:

Thank you for the answer on the Reserve Corps of Destiny. It sounds most reasonable to me. Although I assumed the Guardians of Destiny (and Midwayers when needed) were active in these meetings, I don't know why I didn't immediately think of the Thought Adjuster. This explanation makes the wording in this section quite understandable.

I hope you received the copy of Rev. Robert Chiles criticisms which I sent yesterday.

Cordially yours,

M. J. L.

Dear Dr. Sprunger:

Regarding your question about the Reserve Corps of Destiny holding meetings: I don't think they hold any meetings among themselves, of which they are conscious. I think their organization is presided over by self-conscious Thought Adjusters in connection with Guardians of Destiny and the Midwayers.

It is my understanding that these Reservists would go on peacefully sleeping through all this.

Now there might occur in the case of "contact personalities" from time to time certain episodes of which they might be informed by the midwayers, and would therefore come to possess knowledge of their participation in some human event, as was the case of the "contact personality" in the production of the Urantia Papers.

This is my understanding of the meaning of the paragraph you referred to.

Sincerely,

William S. Sadler
