Meredith J. Sprunger
Minister
Grace United Church of Christ
307 Plymouth St.
Culver, Indiana

Dear Meredith:

I'm glad you enjoyed the Master Universe Hypothesis. What you have is the Third Draft and the Fourth Draft is in process. Your suggestions are much appreciated and will receive attention in the Fourth Draft.

I'm putting it in a little different form by having some of the detailed reasoning put into appendices and taking it out of the text. I've had to provide five appendices to cover just the introduction to the First Section.

I'm glad you liked the Triennial report and maybe we can discuss this some time in Culver.

I've had some interesting adventures with two of the groups in California and with the group in Oklahoma City. There's a little study group forming in Connecticut which is slowly growing and has reached seven and may shortly grow still further.

I'll do my best to get to Culver as soon as the work pressure slackens a little.

Cordially and sincerely,

Bill
