Dear Mr. Weiss:

At last I have the pictures which I took at the airport the day you arrived, Sunday, August 21, 1960. We all think they are very good, except one which is a little blurred, and I hope you like them too. They will serve as a little memento of your trip. I've also included a picture of the Sadler house, as I thought you might like to have that.

I'm also sending you under separate cover a copy of a presentation I prepared last year - "The Lives We Live." The Glenview society asked me to speak to their meeting one night so I presented this. It was so well received that I was asked to do it again on Sunday before the Chicago group. And I had so many requests for copies that I had it duplicated. I hope you like it.

I'm so sorry I didn't have more chance to get really acquainted with you. But I have a full-time job downtown during the day, and evenings and weekends when I was here at Sadlers, you were either away or otherwise occupied. Perhaps next time you come we can have more time together.

Cordially,

Secretary-General

Marian Rowley

URANTIA FOUNDATION

CHICAGO 14 (Ill.)

Dear Mrs. Rowley,

I was delighted to receive your nice color photos. Marny around me who have followed my efforts for the Urantia Book wanted to know Dr Sadler and those attracted around him by the spiritual gravitation. So I could satisfy their curiosity.

Now I await the sea-mail with a copy of " The Lives we Live " and I thank you in advance.

I would have been glad to spend more time with you, but I was squashed between dates and forced to go back a little prematurely for the Gelsey corrections in Paris.

Besides, the Urantia hospitality and kindness was above expectations for me, and I had not planned the adequate response before leaving Europe. But next time, I shall come with experience.

Only, I would come with the French Book, and the main delay comes from the Lawyers. In France, we sign contracts without lawyers, or after a quick consultation with them, except for special deals where they are needed. The American way of losing an incredible time with them seems so strange to us. What is your feeling about it ?

Very sincerely yours,

J. Weiss
