Members of URANTIA Brotherhood and Friends:

By now the news has reached almost all of you that URANTIA Foundation has filed suit in the courts of California against William Burton King, Barbara A. King, Doris George, and the organization which these three have named "Urantian School of Research" or "Urantian Research."

The suit has been filed because of flagrant and repeated violations of the copyright of The URANTIA Book and infringements of registered marks of URANTIA Foundation.

"Urantian Research" has declared open war on the copyright and has boldly printed and distributed whole papers from The URANTIA Book as a challenge to the Trustees.

One of our most important responsibilities is to protect the fifth epochal revelation so that it may be carried intact to inspire the lives of our descendants as it has so inspired us. We must leave this revelation to our children without a word changed.

The Trustees of URANTIA Foundation have been given the task of achieving this part of the URANTIA mission. But they cannot do the job alone. Through our prayers, through financial support, and through watching over the copyright in our own communities we can do much to aid the Trustees in this work we have given them to do. And I know you will join us in applauding the action they have taken against the Kings and Doris George, and that your support will be forthcoming.
