Dear David:

Your letter to Jim and the Houston Society is superb! You insightfully and effectively point out their action is undermining the very values they wish to preserve. The officers of the Brotherhood all have high praise for the content and spirit of your letter. I would love to have the General Councilors read it.

We must allow individuals and groups to determine their own destiny but I would hope that we have enough people like you and Sue to serve as balance wheels for URANTIA Brotherhood. I hope that even though the Houston Society charter must be returned or revoked that there will be no break in fellowship.

Thank you for your excellent contribution and support of the spirit and policies of URANTIA Brotherhood. We look forward to visiting with you at General Conference.

Cordially,

Meredith J. Sprunger
