

THE URANTIA BOOK FELLOWSHIP

Cultivating The Spirit of Religion

Dear Friend of the Fellowship:

We are celebrating the completion of a long term project: the new audio DVD of *The Urantia Book* narrated by Merritt Horn. Yes, it is unprecedented, but we have successfully put the entire book on just *one* DVD. In recognition and appreciation of your membership, support and involvement with The Urantia Book Fellowship we have enclosed a **complementary copy** for your family's enjoyment.

Nearly two decades in the making, these digitally re-mastered recordings were sent to a professional DVD production company who created a single DVD containing a comprehensive menu system that makes finding your favorite papers easy. But it gets better. Copies of the DVD will be available to purchase separately, but they are also being inserted into *every* Uversa Press edition of *The Urantia Book* as a free bonus with purchase. That means that everyone who buys the Uversa Press book to read will be able to listen to it also.

You may be wondering how we can do something like this. Well, we're on a mission here. We want everyone to read this book and if they can't read it, we want them to hear its revivifying and life affirming message. The fact is we couldn't do things like this without your help. The contributions and support of friends like you make exciting projects like this possible and there are plenty more projects like this on the drawing board.

The Fellowship's ability to succeed in our mission of world wide dissemination depends solely on the generosity of people like you. **Right now if you go to www.urantiabook.org and sign up to make a \$20.00 monthly auto-debit you will still receive the splendid leather bound special edition of *The Urantia Book* as our thanks to you. If you prefer, you can make a one time donation in the envelope provided.**

The ship has steamed out of the harbor, she's a good ship and sound, she only needs a crew to keep the engines stoked. We are the ones who are called to this work and the time *is* now. If not us, who? If not now, when? Go to the Fellowship web site today and sign up, it's fast, simple and secure. If the auto-debit program is not for you, consider making a one time donation, it all helps.

About your new DVD: It has been specially designed to open in both PC *and* Apple computer systems. Please remember that the format is MP3. This DVD is designed to be played back on your personal computer and cannot be played back on an audio CD or DVD player. Once the material is downloaded into your computer you can then easily listen to it from there, or download it onto your iPod or any other MP3 playback device.

The reviews for this DVD have been superb so far. Urantia Book readers love having the entire book on *one* state of the art DVD, narrated by a highly respected and avid Urantian scholar like Merritt Horn. As one long-time reader put it, "It's a veritable GOLD MINE!"

Thanks so much! Your continued support is vital and deeply appreciated!

Your Friends at The Urantia Book Fellowship.
