Mr Wm Sadler. Jr
Urantia Brotherhood
Chicago. Ill
Dear Bill:

M.T.R.
The crux of this letter is for the Secretary of the Brotherhood, but I thought that you might be willing to help in the execution of the problems mentioned, as you pass the letter on.

First let me express my thanks for the 20 copies of the BOOK received yesterday and next, I would like to receive 20 copies of the "Explanation of Origin Card" mentioned in a letter I received a while ago. I had not mentioned these before because I thought that the cards would be inserted in the books.

And now that the material has been released in printed form I would like to have someone post to me the notebook I used for reading during my occasional visits. The last time I was in the Reading Room the notebook was in the lowest drawer, on the right hand side of the right hand bookcase as you faced the bookcases. It is a black-covered loose-leafed book and has my name on it. In it various subjects are segregated.

As for the BOOK, it is as handsome and weighty as the material it contains and will doubtless be as impressive, yet bewildering-as the matter was to me when I first had access to it, to the recipients as anything they have ever beheld. It seems to me that impatience of the reader will not allow them to read the book from beginning to the end, they will want to dip here and there and I would like to know if you in your wisdom and familiarity with the contents, have listed certain pages, or paragraphs which advisably should first be read. They will want to know the origin of the text; how-come the earth, and they. They will want to know as far as possible the potentials of the future. Then may come a comprehending interest in the Grand Universe, its Creator and its management. To the persistent reader such things are revealed, but many people now-a-day are so crowded with so many things and so conditioned by the "Extract" publications that they expect and look for a "high-shock" treatment. This will not be the case with most of the people to whom I will pass the BOOK, but even the best of them would, I am sure, welcome some guidance.

I know that there is a heavy work-load for the secretarial staff, but I wonder if some day it might be possible to compile a district-distribution list for people who get a copy so that those within associative regions might get together for discussion.

With best regards and best thoughts

Sincerely

Hubert
Hubert Wilkins.
