Dear Mr. Sadler:

Our conference this noon was for me most rewarding. Am rather anxious to get an introduction to the Urantia Book worked out, so am enclosing a revised copy for your comment and suggestions. Also would you or someone else be able to furnish me with history of the Urantia Foundation from its beginning to the present time. Or if this is not advisable, then a description of the Foundation.

Thank you again for your time, help and kindness.

Sincerely yours,

Meredith J. Sprunger
