Dear Dr. Sadler:

This is just a note to let you know that I have definitely decided to go into college or university teaching. This week I got my credentials in order at the Purdue Teacher Placement Office and hope to be placed in a school by next September. D. J. R. Mitchell, director of the Placement Office, said he thought there would be no difficulty placing me.

If possible for a couple of years I will leave my family in Culver and return over the week end to take care of the church activities. Our daughter, Ruth, said she would like to finish high school here. We shall see what develops.

It seems to me that the future of the Urantia movement is linked with the educational systems of the world. I think the insights of the Urantia Book can be inserted (without labeling) in the universities long before they would be accepted by the religious organizations.

Have been doing some thinking along this line and am enclosing a summary of these ideas. Maybe they could be included among the records of the Education Committee as one suggestion toward an educational policy which must sooner or later be formulated.

Best wishes and greetings to Christs.

Cordially,

*Meredith*

Dear Dr. Sprunger:

First, let me tell you that I continue to enjoy your Urantia translation of the Psalms. I am much interested in your plans to get into educational work. I rather think that it will turn out that you have made a wise decision. The more I think about it the more it seems to me that for the time being you are doing the best thing.

Thank you for your notice about education in the Brotherhood. I will present it to the Educational Committee. You will be interested to know that our last meeting a few weeks ago was devoted entirely to the correspondence study. We expect to formulate some plan in the next few months.

I will be interested to hear how your plans work out. With all best wishes to you, I am

Sincerely,

William S. Sadler
