Dear Paul Snider,

This is a reply to your last letter, of which a copy is enclosed with this letter.

Thank you for indicating that my views on the newsletter will be taken into account in the decision-making process. If I can have that much impact on your organization at this level of my status vis-a-vis the Urantia Brotherhood/Foundation, then I am made all the more eager to become an official member of the Brotherhood.

I talked to Vern Grimsley over in Berkeley at the Thursday meeting, October 10. He told me that there is no Urantia Brotherhood Society officially in Berkeley. all the Berkeley Urantians are at-large members because of this official absence.

Did you not already know these facts? (2)

It seems not. Therefore I, too, request at-large membership in the Urantia Brotherhood. Please send me the proper forms to fill out. I trust I can find someone to recommend me since since this is my sixth year of evolution relative to the ideas set forth in the Urantia Book. I have learned, up to this time, that the Paradise Trinity is the Equation of Reality, the Father-Son Equality in Absolute Actualities by Mutual Choice (the Third Person). I have learned that this Equation of Personality - the actuality of Equality - causes the Absolute Impersonal Unified Reaction, the Sub of Paradise. Thereby the Absolute of Personality/Trinity is equal to the Absolute of Impersonality/Unity. Further, the universes of time and space are the evolving synthesis of these two absolutes of Personal-Trinity and Impersonal - Unity. This is Morantia Mota, the Soul,

I know the Father as the All-Personality.

I know each son as One Personality.

I know that the Paradise Trinity creates the

First actual absolute Personality*, thereby setting forth the beginning of all time. In this all-time, the

still-potential sons of the Father (the Thought Adjusters) begin their gradual actualization as Personalities - by

choice. Reality actualizes by means of the Trinity

Process, which is the equalization - hence neutralization - of opposites: the Father and the Son, who are

Personality - as - Existential and Personality - as - Experiential.

This process is the means by which all sons of the Father realize and manifest their sonship: the Trinity

Method of Reality-Structure, which is the foundation of creation and its creative source. It proceeds by

choice and hence ~~must~~ must be gradual. Evolutionary progress is inherent in choice.

Sincerely yours,
Philip Eversoil
