Excerpts from letters received at headquarters:

"Since reading the Urantia Book and trying very hard to put these teachings to work in our home, my husband feels we have more harmony, peace and love than he would ever have believed possible. We love the phrase 'Sanctified common sense,' and try to use it in caring for our family."

"First, I thank God and everyone that may have been connected with the publishing of the book Urantia, God's revelation of truth to mankind, - those of this world and those of the spiritual universe.

"The edition I have read belongs to the San Antonio Public Library, and so I would like to have a copy for my own use, if you will be kind enough to inform me of the current price. I feel this book is the most important book ever so far published on this world, and that it's value is greater than that of all the universities now in existence."

"I am 12 years old. I really don't know where to begin. It's hard to put words into feelings. I have your book and I would like to ask you about the pathway to Paradise. I suppose it's something everyone has to find for himself. There are just so many beautiful things to see and learn. I'd love it if somebody at the Foundation could act as a counselor, please."

"I have begun reading Urantia. The adventure is like nothing I've known before."
