Excerpts from letters received recently:

Portland, Oregon

"I suppose that you are naturally curious as to how the various students of the Urantia Book got started reading it. I started reading it in Juneau, Alaska last spring. I was hitch-hiking one evening and a fellow picked me up, and I told him that I was trying to write an interpretive book on the bible, and he mentioned the Urantia Book. I looked at it and started reading it. But I really didn't settle down and start seriously reading until September when I came south for the winter. I've worked part-time for the last three months and concentrated my time on getting the Urantia Book read, and I'll probably keep doing the same thing for the next few months."

Grand Junction, Colorado

"I have studied the "URANTIA BOOK" for over three years. The more I understand the more I fall in "love" with it. It is impossible to describe or put into words. The best way for me is, "I know who I am, what I am, and where I am going."

"We wish you, all of you, to know that we (my family) appreciate all you have done and are doing. We pray for you and will help when we can."
