GEORGIA GECHT

Subject: The Spirit of Truth

CLOSING REMARKS

President

MR. JACQUES WEISS translated the Urantia Book from English into French, a fantastic achievement, which bespeaks his extravagant imagination and characteristics.

The French edition was published in 1962. The French headquarters are in Paris.

Sale of "Cosmogonie d'Urantia" has been extremely successful in France. It is published in three volumes and sells at twenty-four dollars the set.

Mr. Weiss is a keen observer of the progress we are making with the book. He is an enthusiastic international disseminator of the Urantia teachings.

He reports that a market has been opened in Switzerland, Naples, Morocco, Rio de Janeiro, Madagascar, and other far away places.

We are deeply grateful that he and his party have consented to spend the day with us while on an extensive tour of the United States, and most especially because we can share our remembrance celebration with them.
