Los Angeles, California 90066

Dear Scott:

The award I was given last Sunday by FUSLA pleased me more than any other honor, award, or recognition I have ever received. It was a particularly notable and memorable Urantian surprise to me, for it is the first "official recognition" of any kind my labor of love has received. It is especially precious to me, therefore.

I want to say a great "thank you" too for the thoughtfulness shown in the lovely bouquet given Florence. She deserved it, for she was a "Concordex widow" for more long evenings and weekends than I would dare calculate.

Please let your membership know that this beautiful expression of appreciation touched me precisely where and as you all intended it to.

This "thank you" will always seem inadequate to me.

Sincerely yours,

Clyde Bedell
