

RE: FUSLA PROGRAM

12/5/76

Nov. 9, 1976

Dear Sue and David,

I realize the card is all of 6 months late, but I couldn't resist it for when I saw it I thought of you. It is different for sure, from the usual pink and blue.

This is really a combined social and business note as it also regards the FUSLA December program meeting and your part in it. We are all looking forward to a Kantor presentation and are hoping both of you can be present for our extended program, specifically on Dec. 5 from 12 p.m. to 5:p.m., with an hour's break between 2 and 3 for dinner and fellowship. Since I don't know the length of your presentation I allowed 60 minutes on the *tentative program, but we on the Education Committee feel that an hour might be a little long, (in case there is a choice). Anyway, I'll let you be the judge of what you think would fit in best.

I would appreciate your dropping me a line or postcard with the title of your "creation" and the app. length of it. We want to print up a one page program to hand out to those attending as they come in.

Thanks so much. And if you need a place to stay we would love to have you.. also the baby if you bring her and you want her to get spoiled. This house is baby-crazy. We are 35-40 min. to Culver City, but it's an easy drive as we are now near Highway 101.

Love, Pally Friedman

P.S. I want to get this in the mail, but will send you a program in a day or 2.

* As of now we have your part down for the 2nd half of the afternoon at app. 3:15 p.m. Is that o.k? Vern wanted to be on first.
