Pursuant to our recent telephone conversation concerning The URANTIA Book, I am enclosing some further information about the book.

This book is a 2,097 page hardcover, retailing at \$34.00. It is published by a non-profit foundation that sells only this book. It has been on the market since 1955. Current sales are about 10,000 annually.

See enclosed pamphlet for a description of contents.

As an authorized distributorship of this book, we are able to offer you the following terms:

1. a discount of 40% off retail price;
2. payment is COD; or, with approved credit, within 30 days of invoice;
3. books are returnable, with a 10% restocking fee and postage prepaid;
4. freight is prepaid on case lots (10 books to a case); for orders less than a case, freight is collect or billed.

We also distribute a 440 page hardcover, The Concordex of the URANTIA Book. This is considered very helpful by most readers of the Book. It is published independently of the publishers of the Urantia Book itself. The Concordex retails at \$12.00. Same terms are offered as above.

We are looking forward to being of service to you in the near future.

Sincerely yours,

Lou Meyer
