UNIVERSE LEVELS OF REALITY

BY WAYNE FERRIER

WE wake up in the morning and our Adjusters lets us know if we need a shower bath, brush our teeth, does anything need cleaned up in here? Wash the articles of raiment worn by human beings today. Wash dishes, and use soap powder and Comet and clean the stove, eat breakfast, and feed those cats! Take a niacin and half of a multi-. Make sure you get magnesium tonight, get some molasses this afternoon. Pay John ten bucks, he needs it. Larry needs someone to talk to, go there this afternoon too. Of course you dont have to if you dont want to-, but its better if you do. Call Mom and let her know when your going to pay back that money you borrowed last week. Turn on the radio, ifyou want to, your missing a good song. And if you want, write a letter to the Broutherhood, I'd suggest (bring or put forward for consideration, action, or approval; propose. Arouse in the mind by association or connection connote.) what you learned, last night, from those connotating Melchizedeks. And so is life and existence with my Adjuster.

Melchizedeks,unlike Adjusters, are everywhere! Whereins Adjusters are eternally fixed, always there, and dependable. Melchizedeks are certainly dependable, but you cant keep up with them, They only stick around for a few minutes, an hour at the most, lay some things on you that you dont figure out till several decades later, and then,like a Blue Angel,they gone! They always have something funny to say too, which never fails to make the Adjuster laugh. Sometimes you dont even get to see them personally, you find evidence of them in history books, TV vidios, certain songs, people mention them, even written into graffito, and flying sauser storys.

Just mention the name Melchizedek, anywhere in the universe, and Bingo! you've got a whole new detective story to discover, which will eventually lead you directly to the father.

2.

The Melchizedeks seem to be the Perfectors of Wisdom of the local universe, when they are trying to teach you something. They are Divine Counselor like when youve done something wrong. And act like Universal Censors when there is a placing , an inlay of circuits thus being created.

In understanding the Revelations further you must become aware of some or at least one of these circuits (seeds) and not ignore them. There seem to be an endless amount of them and they all eventually converge. So it is easy once youve had some expirience, to comprhend them, trace them out, and add your subsequent contribution-extention to them. That is public ministry, and only your Adjuster can interpret how that ministry can come about.

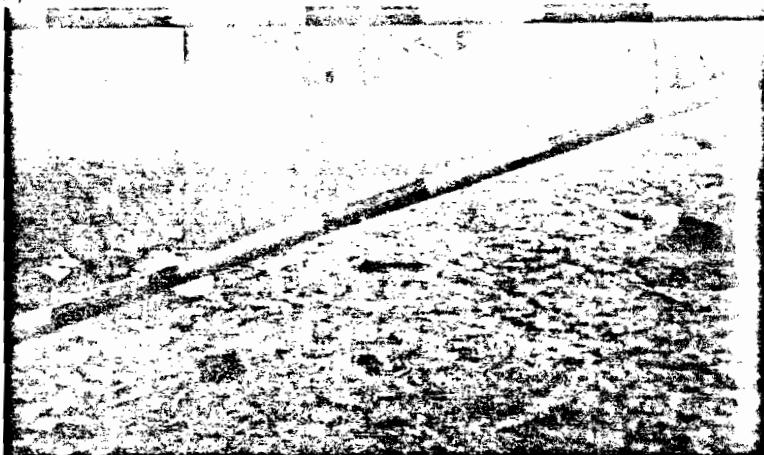

It usually begins , personly in the home, extending to the neighborhood. Evolving into the school, and converging in the streets, sometimes on the highways, or in the collages it starts to make itself known. We are the world, so Paper 106 was written so that we can identify it, this my favorite Melchizedek teaching is why I love Urantia and appriciate being here.

In my last letter the Adjuster informed me to leave some seeds, that were planted in fertile soil. my extention of the Universe story. The Melchizedeks want to directly commune with you. They went through great trouble to set up a means of contacting mankind, personly and in a quiet less shocking manner. To us, They are beings of a very High Order.

Yours Truly

The mission of the Thought Adjusters to the human races is to represent, to be, the Universal Father to the mortal creatures of time and space; that is the fundamental work of the divine gifts. 1185

no need to ask hes a smooth operator...
hang on, help is on the way Ill be there as fast as I can,
hang on, help is on the way, somewhere deep inside the
inner-man....

Stick around were nearly there, its comming up-

The seemingly insoluble problems of today were created by the two pre-1946 generations. The scope and magnitude of the problems seem to defy comprehension overpoulation, pollution, violence, doomsday weaponry, the efforts of the status quo generations to shield the younger generation from new ideas.

If I were in charge of evolutionary matters on this planet, I would, at this precise moment, flood the place with advanced humans wired to take over peaceably and initiate the necessary changes.

And behold! This is exactly what DNA seems to have done. just when the situation looked hopeless, here came 76 million post-WAR Americans- 40 million more then we expected- fresh confident, programmed for innovation.

A recent Yankelovitch poll suggest that 80 percent of the American public is currently involved in personal fulfillment projects, most of which involve some form of re-juvenilization. Critics of this trend say it will bring an end to the Industrial Age in America, and they are right. The Industrial Age is over. The Information Age has arrived. I see this as a cause for celebration. Survival in the future will be based on intelligence increase: expanding the spectrum of information we receive, improving our models for analyzing these facts, and developing more powerful modes of transmitting up-dated signals to others.

I make this prediction with confidence and serenity:

the Young Ones are ready to Turn On the higher circuits of their brains, Tune in to the awesome strenth of their numbers, and Take Charge of evolution.

It's about time.

In those days, says the Lord I will write it in their minds and place it in their hearts.

It is not enough that the ascending mortal should know something of the relations and unity quality, the genesis and the making plain, disclosure or display a revelation-hence, the public or collective act by government or party in order to emphasize its power, determination, or special views, A revealing agency, of the materialization of a spirit, the universe at large as a harmon-system, Orderly: opposed to chaotic, Of a magnitude or extent in space or time suggesting those of the universe; of vast extent or duration - reality... he should also comprehend something of the relationships existing between himself and the numerous. Levels of the fact of existence and the acquired by experience - realities. Of potential and actual realities. Mans terrestrial position with relation to the points of the compass - the determination or adjustment of one's position with reference to circumstances, ideals, etc. and so on and on, and awareness of ones temporal, spatial and personal relationships, his cosmic insight, and his spiritual directionization are all, enhanced by a better comprehension of universe realities and their techniques of interassociation, intergration and unification. The present grand universe and the emerging master universe are made up... of many forms, and phases of reality which in turn are existent on several levels of functional - designed for or suited to a particular use activity or operation. These manifold existents and the not visible- apparent potentially capable of being expressed, undeveloped concealed buds have been previously suggested and are now grouped for conceptual convenience in the following categories:

present
 Havona
 Paradise

1. Incomplete finites.
2. Maximum finites. - "maximum" is itself a relative term- maximum in relation to what?
3. Transcendentals. - this above and beyond , more then, exceeding the normal finites follows finite progression. It implies the prefinite genesis of of finite beginnings and the post finite significance of all apparent finite endings or destinies.
4. Ultimates. - last of a series, engaged with master universe significance aswell as the Fathers worlds- dual-origin- Teacher Sons of Trinity.
5. Coabsolutes. This level implies the projection of us upon an exceedingly expertly created type of universe.
6. Absolutes. This level connotes the eternity presence of the seven existents unlimited, independant, unconditional, positive, entire, total, unquestionable. It may also involve some degree of associative - earned from expiarence, attainment, but if so, we do not understand how, perhaps through the contact potential of personality.
7. Infinity. This level is pre-existential and post-experientials. Unqualified unity of infinity is a hypothetical reality.

There are a number of other-then mortal perspective and from the standpoint of other universe ages. Thus it should be recognized that the concepts herewith presented are entirely relative relative in the sense of "being " -conditioned by limitation- mortal language, mortal mind, limited development of the seven superuniverses, your ignorance of the six prime purposes of superuniverse development which do not pertain to the mortal ascent to Paradise,, and our inability, and undesire to penetrate into Absolutes, unwillingness to venture too far-beyond static unified infinity.

Repletion is continually being superimposed upon completion. * I may add that this is part of the secret concerning such personalities such as the Ancient of Days, Power Directors, Union of Days and Faithful Of Days among others of superuniverse import.

I am also allowed to discover and make known to you
 That -

That the unit of value are in fact, literally,
are explicitly The Nebadon Melchizedeks!

They have long since been the phenomenon of the successive change of form of all energies deriving from the Unqualified Absolute- Cosmic Force unresponsive to nothing/void patterned by personality, into all forms- energy directly responsive to linear gravity and still responding to Spirit overcontrol. The other 6 prime purposes of superuniverse development do not pertain to us on our ascent to Paradise - fusion in Havona with other superuniverse personalities will disclose what led up to the completion/depletion/completion aspect of the Seventh Master Spirit and the Orvonton Ancient Of Days.

POWER DIRECTOR

1. PRIMARY ASSOCIATION OF FINITE FUNCTIONALS

Primary, in the sense of cateplasmic induction, also in the sense of forms of conception/knowledge when unified embrace all of the known by completion repletion. Association used in the sense of aggregates, crystallization of physical, mindal, and spiritual. Finite used in the sense of particle. Function used in the sense prime importance, modifying such factors as form and structure so that they may contribute the utmost to the effective functioning of the whole.

The divinity ministry of the Sevenfold reaches inward through the Eternal Son to the Paradise Father and outward through the Ancient of Days to the universe Fathers- the Creator Sons. Repletion.

2. SECONDARY SUPREME FINITE INTEGRATION

The Supreme Being is the deity culmination of grand universe evolution- physical evolution around a spirit nucleus and eventual dominance of the spirit nucleus over the encircling and whirling domains of physical evolution. And all this takes place in accordance with the mandates of personality. Unification of evolutionary power with, and its dominance by, Spirit Personality. The Universe Family.

~~Michael of Nebadon is one with the Paradise Father; so will people ... see you sometime to attain brotherhood, for they truly share his evolutionary perfection. The maximum development and reconstruction of the entire. The Grand Universe in Light and Life.~~

3. TRANSCENDENTAL TERTIARY REALITY ASSOCIATION

The absenite architects eventuate the plan; the Supreme Creators bring it into existence; the Supreme Being will consummate its fullness as it was time created by the Supreme Creators, and as it was space forecast by the the Master Architects.

8272719

The appearance of the Almighty Supreme at the termination of the present will. The evolutionary finite has attained the first stage of experiential destiny. This will happen.

9.

It will certainly lead to the completed. It is destined to effect the further evolutionary intergration of the master creation. It is truly one with infinity, and no one can possibly be infinite that does not include the original. But the original is an eventuality of the exclusive association of absolute unity, subabsolute beings had nothing to do with this primal association. The subsequent appearing and experiential embrace the contributions of even creature personalities. certainly this is true, The trinity Ultimate (beyond which there is no other) has definity been known to embrace creatures. In fact right in the very presence of the Master Creator Sons! Among the SUPREME CREATOR members therof betokens the concomitant presence of actual and bona fide creature experience within this association.

The first experiential provides for group projects of ultimate eventualities. Group associations are enabled to anticipate, even to transcend, individual capacities; and this is true even beyond the finite level. Throughout all these developments we detect the expansion of the comprehensible elements of the Universal Father.

4. ULTIMATE QUARTAN INTEGRATION

The Paradise Trinity certainly co-ordinates in the ultimate sense but functions in this respect as a self-qualified absolute; The experiential Trinity Ultimate co-ordinates the transcendental as a transcendental. In the eternal future this will, this intensifying unity further activates the eventuating presence of Ultimate Deity.

You have been informed of the existence of the Qualified Vicegerents to a certain qualified extent,, and with limited information.

He will be experientible by all personalities who have been participants in the actualization of this Transcendence of the finite, time and space is nonetheless a subabsolute inevitability notwithstanding inherent capacity for functional association with absolutes. Universe Reflectivity.

A strange thing occurred when, in the presence of Paradise, the Universal Father and the Eternal Son unite to personalize themselves. Nothing in this eternity situation foreshadows that THE CONJOINT ACTOR would personalize as an unlimited spirituality co-ordinated with absolute mind and endowed with unique prerogatives of energy manipulation. His coming into being completes the Father's liberation from the bonds of centralized perfection and from the fetters of personality absolutism. And this liberation is disclosed in the amazing power of the Conjoint Creator to create beings well adapted to serve as ministering spirits even to the material creatures of the subsequently evolving universes. 98

There are many untrammelled lines of spiritual force and sources of super-material power linking the people of Urantia directly with the Deities of Paradise. There exist the connection of the THOUGHT ADJUSTERS direct with the Universal Father, the widespread influence of the spiritual-gravity urge of the Eternal Son, and the spiritual presence of the Conjoint Creator. 100.

caught up in circuits, confusion is nothing new,
if your lost, you can look and you will find it time after time...

Antigravity can annul gravity within a local frame; it does so by the exercise of equal force presence. It operates only with reference to material gravity, and it is not the action of mind. The gravity-resistant phenomenon of a gyroscope is a fair illustration of the effect of antigravity but of no value to illustrate the cause of antigravity.

Still further does the Conjoint Actor display powers which can transcend force and neutralize energy. Such powers operate by slowing down energy to the point of materialization and by other techniques unknown to you.

101

The Conjoint Creator is the ancestor of the cosmic mind, and the mind of man is an individualized circuit, an impersonal portion, of that cosmic mind as it is bestowed in a local universe by a Creative Daughter of the Third Source and Center.

103

Divine personality is not self-centered; self-distribution and sharing of personality characterize divine freewill selfhood.

109

but from the larger viewpoint the space regions extending beyond the outer borders of the seven superuniverses are generally recognized as constituting the domains of the Unqualified Absolute.

130

The power centers utilize vast mechanisms and co-ordinations of a material order in liaison with the living mechanisms of the various segregated energy concentrations. Each individual power center is constituted in exactly one million units of functional control, and these energy-modifying units are not stationary as are the vital organs of man's physical body; these "vital organs" of power regulation are mobile and truly kaleidoscopic in associative possibilities.

we are living in a material world...

The Seven Supreme Power Directors are stationed on peripheral Paradise, where their slowly circulating presences indicate the whereabouts of the force-focal headquarters of the Master Spirits. 320

COABSOLUTE OR FIFTH-PHASE ASSOCIATION

The Ultimate and the Supreme lays the foundation for the second experiential Trinity. With these two and the Trinity Absolute and the unrevealed Consummator of Universe Destiny, has theoretical capacity to activate the Deity, Universal, and Unqualified Absolutes. But the completed formation of this Trinity Absolute could take place only after the completed evolution of the entire master universe, from Havona to the fourth and outermost space level.

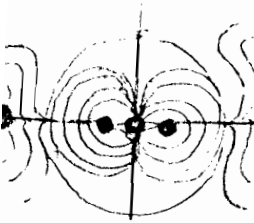

It should be made clear that these experiential Trinities are correlative, not only of the personality qualities of experiential Divinity, but also of all the other-then-personal qualities which characterize their attained Deity unity. While this presentation deals primarily with the personal phases of the unification of the cosmos, it is nonetheless true that the impersonal aspects of the universe of universes are likewise destined to undergo unification as is illustrated by the power-personality synthesis now going on in connection with the evolution of the Supreme Being.

* Im Radio Active *

KEY* neither can God the Ultimate as a person be considered apart from the other-then-personal aspects of Ultimate Deity.

The personality aspects of a trinity are inherent in its ~~inherent in its~~ individual members, and as individual persons they are not that Trinity. But always is trinity inclusive of all encompassed deity; trinity is deity unity. The three Absolutes- Deity, universal, and Unqualified- are not Trinity, for all are not deity. Only the deified can become Trinity, all other associations are triunities or triodities.

My first letter -Trinitized Son * was designed to trigger contemplative thought on the methods, of Cosmic intelligence regarding such contraversal topics such as the retail price of the Urantia Book, Overthrowing the Urantia Brotherhood, the 33% decrease in sales, and the purpose of our future ministry. My second letter, this one ~~is~~ an attempt to make you realize that if you would have read the Urantia Book and have understood it, Your Adjuster should have interpreted it, ~~to~~ a cosmic consciousness of universe circuits and there ought to have been no confusion regarding how channels and circuits are inlayed, this should have resulted in relative Adjuster fusion, enough to ~~know~~ that it is irrelevant to make mortal plans for future development without relative Adjuster fusion, and some form of cosmic intelligence,, beyond mortal reasoning.

For those who have desire, to want to know truth beyond the Incomplete finite, who sincerely want to bring about the eventuating revelation, who wish to overcome vanity and escape the fetters of self-concepts need only ask and he shall be given, those that truly desire to see and contact extraterrestrial intelligence will soon have the chance and full ability. Nothing is impossible to those who know the Father.

In the years 1972- 1978 there was an increasing desire world wide to see and know the Father. When this did happen Cosmic Intelligence on all levels, a good majority of persons instinctively avoided the expected yet unexpected phenomenon, It didnt turn out as each person expected, there was a wide, turning away from The Kingdom. Decreased book sales, interest in Revelation and increased interest in money, life as it used to be, before 78, and material reward.

This in no way has anything to do with Urantia Brotherhood. between 78- 82 mass degradation started occuring resulting from ignorance and misunderstanding cosmic reality. Due to Divine Intravention 83- on to now it should slowly converge and increase, if not something else will occure.

We shouldnt worry about these things only watch listen, and learn. Soon we will all be supremely trained to create passageways for the world to catch up to truth, beauty, and goodness, justice, power, and sovereignty.

The Father, Son, and Spirit has it All in Complete Control. weve only to realize the extent of that control, its awesome!

Next the continuation of Reality levels and Thought Adjusters. Excuse me now Ive got to burn the trash, take out the garbage, and start planting in my garden.

Last note Advanced Deity is something like kaleidoscopic, octopuslike, creaturishness, that is always seemingly unceasingly "cleaning up this mess!"

Give to those that ask, walk that second mile, love the enemy, and pray for those you have trouble with, pick the trash up off the streets and dispose of properly, beautify your neighborhood spiritually, mentally and physically, please dont get me wrong Carry on! But please dont go backwards, political tactics and mass media, and propaganda and genetic mammalian programs, Thats a real mess, its ugly, I get enough of it in newspapers, TV etc., Truth is the beauty of Spiritual Reality.

Lets not unwittingly attempt to overthrow the Spiritual government, and biologicly retrogress.

Leave politics alone till were spiritually qualified to lead the Earth not into the ditch.

Proclaim the gospel
brotherhood!

All Good!
Somebody tell

so hard for now!

5. COASOLUTE OR FIFTH-PHASE ASSOCIATION

The spirit-personal qualities of the Supreme are inseparable from the power prerogatives of the Almighty, and both are complemented by the unknown potential of Supreme mind.

6. ABSOLUTE OR SIXTH-PHASE INTEGRATION

If we assume a cosmos infinite-- some illimitable cosmos on beyond the master universe-- and if we conceive that the final developments of the Absolute Trinity will take place out on such a superultimate stage of action, then it becomes possible to conjecture that the the completed function of the Trinity Absolute will achieve final expression in the creations of infinity and will consummate the absolute actualization of all potentials.

Stated otherwise: The Trinity Absolute as its name implies, is really absolute in total function. We do not know how an absolute function we do not know how an absolute function can achieve total expression on a qualified, limited, or otherwise restricted basis. Hence we must assume that any such totality function will be unconditioned (in potential). And it would also appear that the unconditioned would appear that the unconditioned would also be unlimited, at least from a qualitative standpoint, though we are not so sure regarding quantitative relationships. (NOT SURE! WHAT'S HE TALKING ABOUT? IF ANYONE HAS AN IDEA, PLEASE LET US KNOW.)

EVEN a tentative concept of final integration is inseparable from the fruitions of unqualified eternity and is, therefore, practically nonrealizable at any conceivable future time. (safe but real save me Melchizedek...)

but the degree of the apparent actualization of this threefold Trinity of Trinities is directly proportional to the disappearance of the qualifications and imperfections of reality in the cosmos. (OK MELCHIZEDEK THROW ME BACK IN AGAIN!) but total integration of reality is unqualifiedly and eternally and existentially present in the Paradise Trinity, within which, at this very universe moment, infinite reality is absolutely unified (Power Directors make any thing occur*) (Time to get back to the smooth operator...)

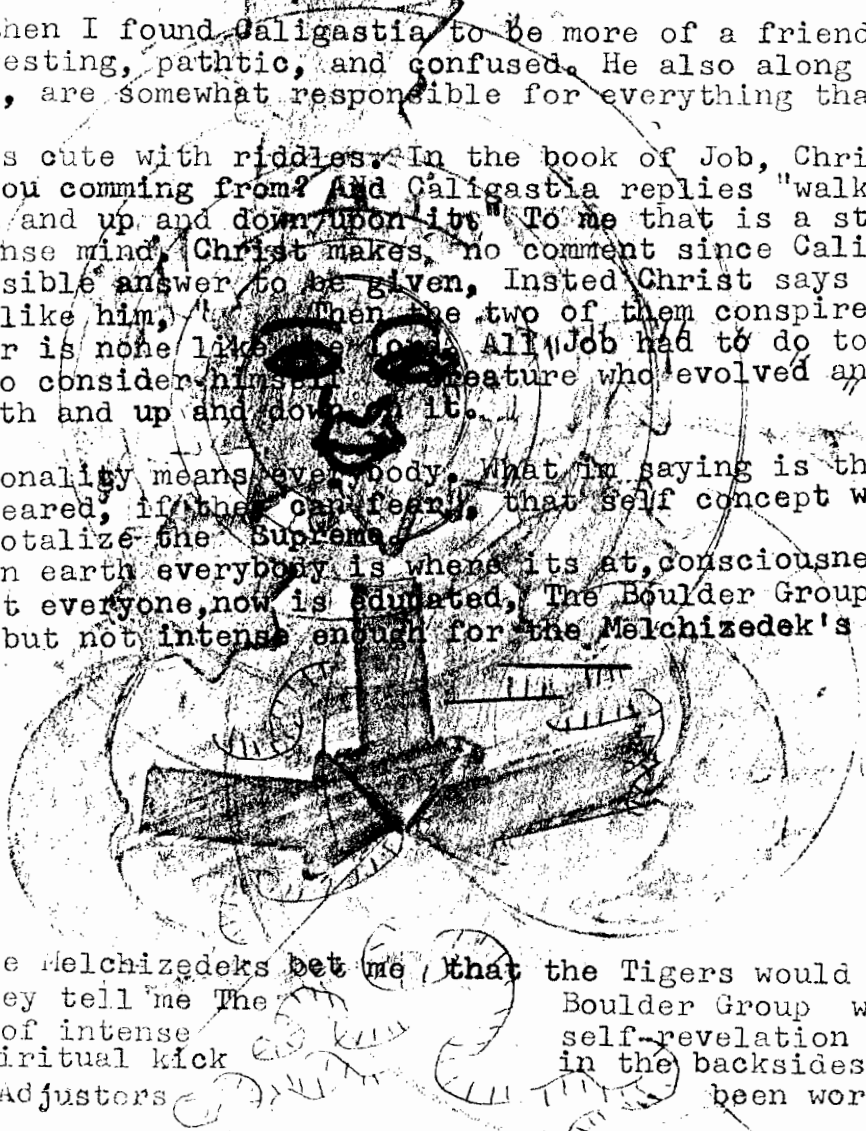

ADJUSTERS

Caligastia was the first conscious transmission my Adjuster sent me, that is besides the consciousness of Raka-Atma Ajunkia Deva, my adjusters name. The full name of my Deity is Leonatanin- Raka-Atma Ajunkia Deva. This must of been when I was 14, Terrified of of the devil I begged, pleaded Abbe-Ra to help me and of course what he said to me was this, "just dont take your eyes of of me for a second and Ill get you out of this *** Caligastia held on tried everything to "discharge me from that fateful agreement, Eleven Years have transpired since that time and I still got my eyes on Abbe, Elevenfold years of decurrent cateplasmic extensive, intensive expirience I'll never forget

Long since then I found Caligastia to be more of a friend then an enemy, interesting, pathtic, and confused. He also along with myriad other beings, are somewhat responsible for everything that went wrong.

Caligastia is cute with riddles. In the book of Job, Christ says "where are you comming from? and Caligastia replies "walking around on the earth and up and down upon it" To me that is a statement from an intense mind. Christ makes no comment since Caligastia made the best possible answer to be given. Insted Christ says "consider Job theres none like him, When the two of them conspire to make Job Realize their is none like Job. All Job had to do to avoid any hassle was to consider himself a creature who evolved and creepith upon the Earth and up and down it.

Contact Personality means everybody. What im saying is this the revelators feared, if the cap fear, that self concept would attempt to totalize the Supreme. These days on earth everybody is where its at, consciousness of the Supreme. Not everyone, now is edumated, The Boulder Group in essence are correct but not intense enough for the Melchizedek's liking.

Last year the Melchizedeks bet me that the Tigers would win that year. Now they tell me The Boulder Group will get their share of intense sort of a spiritual kick know their Adjusters. The Boulder Group will get self-revelation this year. in the backsides to let em been working on them.

You should never ridicule the Supreme the brotherhood, Im not t alking about Chicago, more or less its all one and that is God.

ridicule language calculated to make a person or thing the object of contemptuous humorous disparagement; also, looks or acts expressing amused contempt; derision; mockery.

An object of mocking merriment; butt To make fun of; hold up as a laughingstock; deride synonym derision Ridicule may be merly sportive or thoughtless derision is always hostile or malicious synonyms banter, chaff, deride, flout, jeer, lagoon, mock, quiz, rally, satirize, scoff, taunt. Antonyms; applaud, celebrate, commend. eulogize, extol, honor, praise.

My Adjuster informs me and Admonishes me concerning - advises me of a fault; administers mild reproof to- cautions against danger or error; warn, as of something to be avoided; Admonish is the mildest of reproofing words. concerning; ridicule and says himself and no Adjuster ever encouraged ridicule in any way, shape, or form.

He also has something to add, Ill translate into english, if no Adjuster ever encouraged ridicule, then it must be so that in no way can ridicule ever be considered Supreme, In no way can it last, In no way can the inferior triumph over the superior.

There for concludes the Adjuster in no way can the inferior teach, lead, or disseminate the Urantia teachings, with any proper authority.

Now my Adjuster has a question...

If the human being writing this note is in possession of obvious ridicule, That namely being limited to two planetary prints, most of it is directed towards the Chicago people, if this is so , are the planetary prints in error and owe the Chicago people an apology, or is the human writing this letter incompetent and not Adjuster fused, or unable to discern correctly more or less distortion of meaning, and or does the Urantia teaching have anything to do at all with the way it is transmitted, and if so does ridicule and the Urantia Teaching coincide, and/or Am I, The Adjuster, an incompetent Adjuster and have possibly made a mistake in admonishing this human being to write these letters, and/or is this nearly unreal and irrelavent, and/or is my approach incorrect, wrong, and unable to properly get a point across, and/or is it unadvisable to continue to relay further these transmissions?

note Denver/Boulder herein used designating one entity.
