

VERTICAL CROSS SECTION OF TOTAL SPACE

5

Cycles of space respiration:
Each phase (contraction and expansion)
is a little more than one billion years
..... Uranian years.
Pervaded space is now at mid-
point of the expanding phase
123:6:4

Unpervaded space functions
as the equilibrium of hori-
zontal space; it seems to
counter balance the space
expansion-contraction cycles
of the universe.

These copies were photographed by Mr. Patterson (who became a member of the Society in the 11th) several months ago - from the ones I had typed the references on - and used as loaners. They were getting worn and I didn't have enough of them, and so I use these now, although the printing is not too clear, and the students copy the references at home on the mimeographed charts. Chart #11 is now being photographed, - and I haven't cut the stencil for the constellation yet.

1 page sent ~~ax~~ back to Georgia and not in this set. Page 11.

Headed Satania Government-System. Map of system.

At bottom, map of our solar system. She left out the asteroids in circuit #5, and shows 3 undiscovered planets on the outer edge. Really only 2.

Put a note to Georgia on this page:

"You have 12 orbits of planets, but the 5th orbit should be labeled "Asteroids, 5th planet disrupted" p. 658:3. That makes Jupiter 6th, Saturn 7th, etc. leaving only 12 and 12 undiscovered. Some astronom~~ers~~ don't believe that the asteroids are the result of a disrupted planet, but I have read that some do believe it; ~~they~~ say the comparative distance between the orbits indicates there should be a planet in the orbit where the asteroids are. Unfortunately, I can't give a source for that statement. I read it a long time ago, before I knew about the Urantia Book. Also, note that your figures got reversed on the "Destiny of the moon."

THE UNIVERSAL FATHER IS COSMICALLY FOCALIZED, SPIRITUALLY PERSONALIZED, AND GEOGRAPHICALLY RESIDENT AT THIS CENTER OF THE UNIVERSE OF UNIVERSES P 110:#2:2

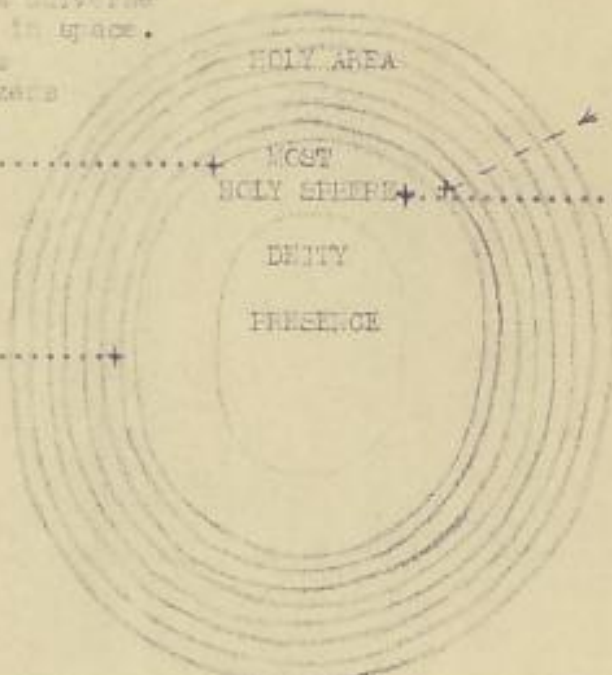

PARADISE ISLE

Information from paper 11, P 110 * Eternal Isle of Paradise*

UPPER

TOP VIEW LOOKING DOWN

- 1) The Isle of Paradise has a universe location, but no position in space.
- 2) The Inner or first zone is occupied by Paradise Citizens and the natives of Havacs who dwell in Paradise.....
- 3) The next, or second zone is the residential area of the natives of the seven superuniverses of time and space.....

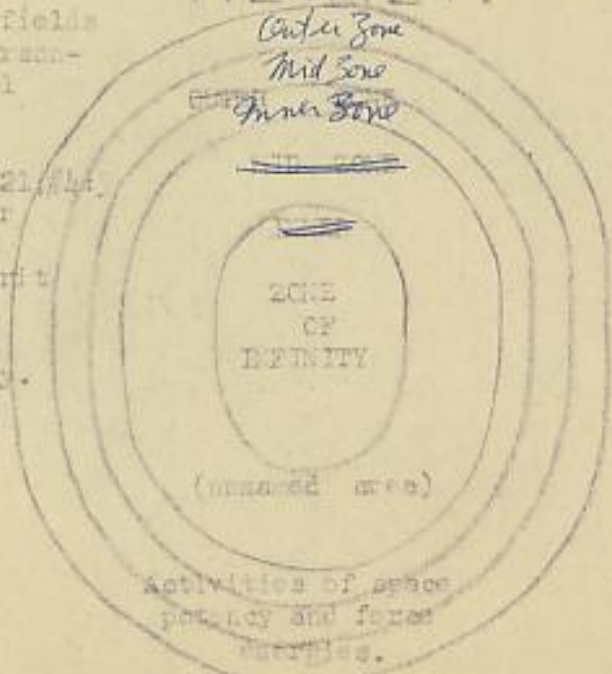

- 4) The Father's Paradise Mansions....residential area divided into seven concentric zones. P 120, 121
- 5) Reserved for the functions of worship, trinitization, and high spiritual attainment 120:#3:1
- 6) There are abundant scavengers of your material days here. 120: # 3:2
- 7) Less than one percent of the Holy LANP is occupied. 121:2

From upper Paradise "transcendental" energy operates in connection with ~~ascetic~~ peoples. Called TRANOSTA #71: number 6

PERIPHERAL PARADISE

NETHER

- 1) Landing and dispatching fields for various groups of personalities are on Peripheral Paradise. 121: #4:1
- 2) Historic and prophetic exhibit areas are here 121:#4:2
- 3) Although the Seven Master Spirits have their seats of power on the Inf. Spirit worlds, they maintain force-focal headquarters on the Paradise ~~X~~riphery. (150:2) 121 # 4:2

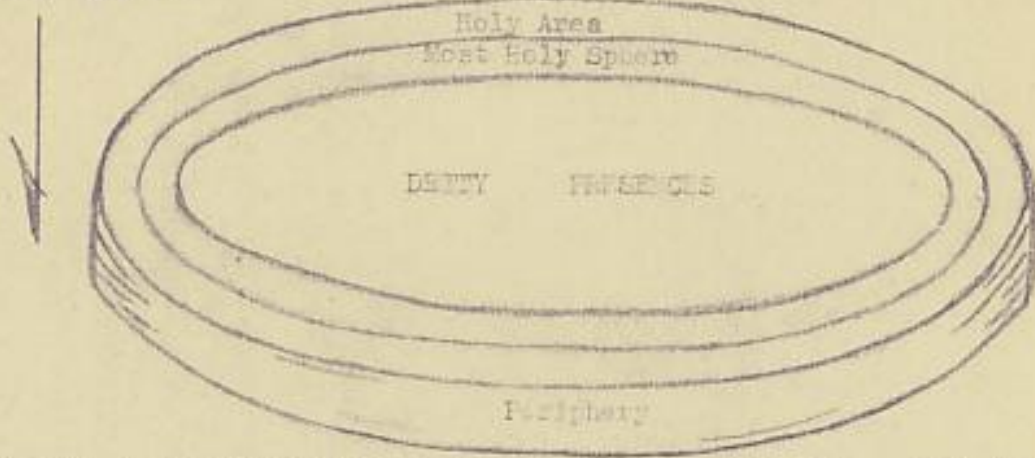

- 1) All physical energy and Cos-force circuits have their origin on ~~Nether~~ Paradise. 122: # 5:1
- 2) The inner zone of this force center seems to act as a gigantic heart whose pulsations direct currents to the outermost borders of physical space. It directs and modifies force energies but hardly drives them. 122: # 5:4

BOTTOM VIEW LOOKING UP

Neither ~~Upper~~ nor ~~Nether~~ Paradise is approachable by transport supernaphis or other types of trans-instruments 121: #4:1

PARADISE UPPER

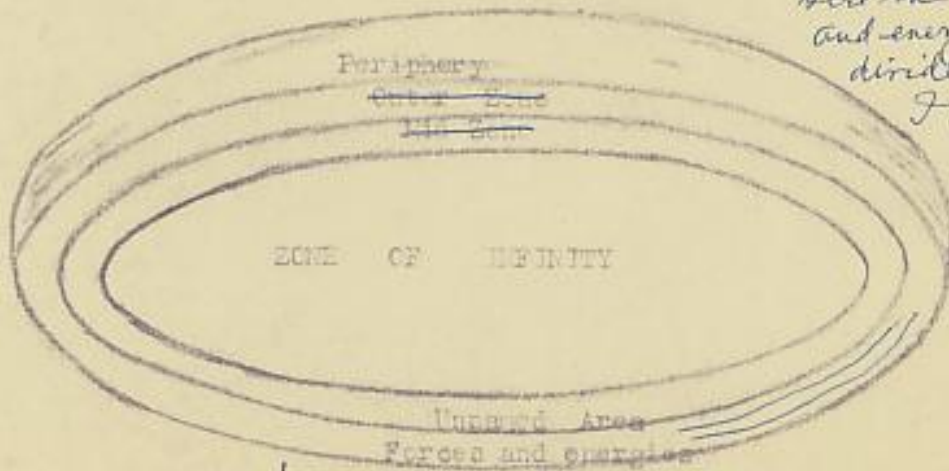

LOOKING DOWN

1. The Central Isle is essentially flat, ellipsoid, and stationary. 119: # 2:2
2. The differences in dimensions, the stationary status, and the greater outpressure of force-energy at the north end of the Isle, make it possible to establish absolute direction (north) in the Master Universe 119: # 2:3
3. (a) The Periphery is 1/10th the distance of the east-west diameter 119: # 2:2
 (b) Historic and exhibit areas are assigned to the Creator Sons (the Michaels) 121: # 4:3
 (c) The Central Isle ends abruptly at the Periphery, but its size is so enormous that this terminal angle is relatively indiscernible 121: # 4:3

Add: The Central Isle is one-sixth longer in the north-south diameter than in the east-west diameter. 121: # 2:2

NETHER

LOOKING UP

Nether P. is drawn correctly on P. 1, but the labels are wrong. Here the outer ring of forces and energies should be divided in 3 as on page 1. I suspect the zone of Infinity & Deity Presences (above) are far too large.
