Topical Study FORCE-ENERGY-POWER

- I. Introduction (1)
- II. Definitions
 - A. Science
 1. Force - a push or pull
 2. Energy - capacity to do work
 3. Work - a force exerted over a distance (motion essential)
 4. Power - rate of doing work
 5. Matter - that which occupies space or has weight (-, -)
 - B. Urantia Book (2,3)
 1. General
 - a. Energy - all-inclusive term applied to spiritual, mindal, and material realms.
 - b. Force - also thus broadly used.
 - c. Power - may be used to designate sovereignty. (4)
 2. Indiscussing physical energy manifestations, use following terms and definitions:
 - a. Cosmic force - pre-gravity stage of energy.
 - b. Emergent energy - responsive to Paradise gravity, unresponsive to linear gravity.
 - c. Universe power - responsive to Paradise and linear gravity; electronic level of energy-matter.
 - d. Matter - organized energy which is subject to linear gravity (4a,4b)
- III. Sources of energy
 - A. The Universal Father is energy; he is omnipotent, controls all power (5-9)
 - B. Paradise - geographical center of Infinity (10-18)
Source of physical gravity, all force-energy, and all material universes.
(Eternity event - prior to space and before time.)
 - C. Infinite Spirit - universal manipulator of energy; initiates motions in space; modifies space presence of Unqualified Absolute so Force Organizers can function. (19-21)
 - D. Unqualified Absolute - repository of potential for all force-energy and matter. (18-22)
 - E. Master Spirits - maintain force-focal headquarters on periphery of Paradise. (23,24)
- function in connection with Morontia phase of reality.
- creators of Universe Power Directors
- IV. Circuits (25-31)

V. Classification of force-energy-power

(32-34)

- A. Physical energy; cosmic force, emergent energy, and universe power.
 1. Space potency - free space presence of Unqualified Absolute --- absoluta.
 2. Primordial force - emerges from domain of Unqualified Absolute --- segregata.
 3. Emergent energies --- ultimata.
 - a. Puissant energy - gigantic energy systems set in motion by Primary Eventuated Master Force Organizers
 - b. Gravity energy - becomes responsive to Paradise gravity through action of Associate Transcendental Master Force Organizers.
4. Universe Power --- gravita - gravity energies directed into channels of power-matter.
5. Havona energy - cycle turns back to force - yet different --- triata.
6. Transcendental energy - on and from upper Paradise for absonite peoples --- tranosta.
7. Monota - Paradise energy - not distinguishable from Paradise spirit.

VI. Matter

- A. Origin of space bodies (35, 36)
- B. Types of spheres of space (37)
- C. Origin of our local universe and of Urantia. (38-42)
- D. Classification of matter. (43-45)
- E. Composition of matter. (46, 47)
- F. Morontia material (48-50)
- G. Constitution of Havona. (51-53)
- H. Paradise and Dark Gravity Bodies (54)

VII. Aspects of Energy (55-60)

VIII. Force-energy-power co-ordinators, controllers, and regulators. (61)

- A. Architects of the Master Universe (62, 63)
- B. Primary Eventuated Master Force Organizers (64)
- C. Associate Transcendental Master Force Organizers (64)
- D. Universe Power Directors.
 1. The Seven Supreme Power Directors (65)
 2. The Supreme Power Centers (66, 67)
 3. The Master Physical Controllers (68, 69)
 4. The Morontia Power Supervisors (70-73)
 5. Celestial Artisans (74)
