

GOSPEL  
AN EXPANDED BIOGRAPHY  
GOSPEL

---

LOUIS J. BARTOLOMEO

Our gospels relate the story of a Jesus who was born and then circumcised on the eighth day. Then he vanishes, reappearing at the age of 13 for his first Jerusalem Passover. Here he confounds the elders in the temple while terrifying his parents who fear him lost. He then disappears for an even longer time, reemerging for his baptism and the selection of his team. What happened in the intervening years? This book fills in the gaps, year by year.

Follow the boy Joshua as he tries to conform to the wishes of his parents while realizing they hold many ideas misrepresentative of the true nature of the Paradise Father. Share his struggles as a young man as his human mind slowly remembers who he really is and the nature of his mission on earth. Feel his frustration at his own apostles who, up until the very end, clung to their Zionist notions about the kingdom of heaven, despite having been repeatedly told by Jesus, "my kingdom is not of this world."

This expanded biography will hold you spellbound as you discover in detail the matchless personality and loving character of God incarnated as man, the combined human and divine natures of Jesus of Nazareth.
