

THE FAMILY OF GOD

David Glass

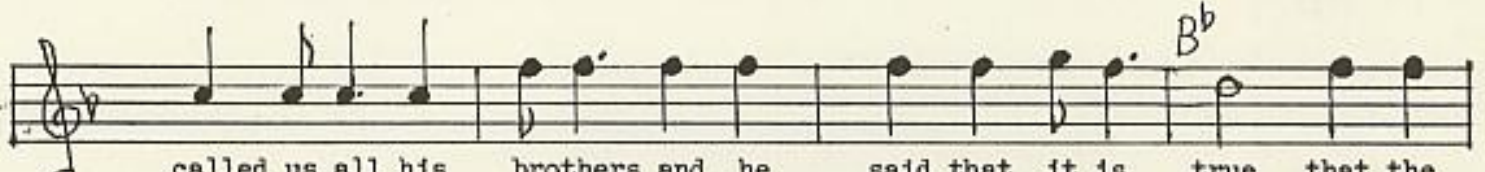

Lively

Chorus: Oh, it's great to be a member of the Fa-mi-ly of God, And to

live up-on the earth on which the Son of Heaven trod. For he

called us all his brothers and he said that it is true that the

God of u - ni - - ver - ses is our lov-ing Father, too.

1. Oh, the

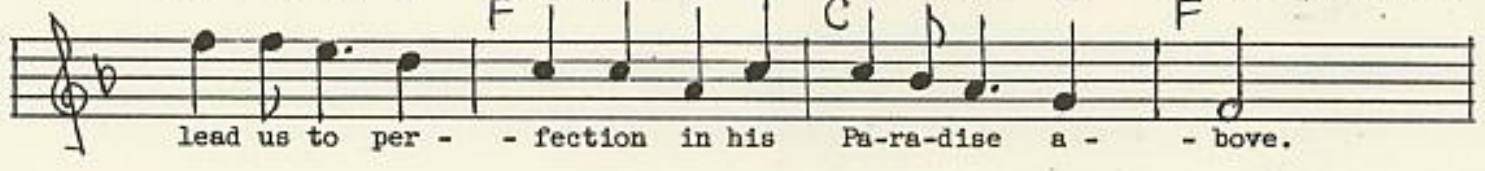

fa - mi - ly of God is sure to grow as it moves on, for the

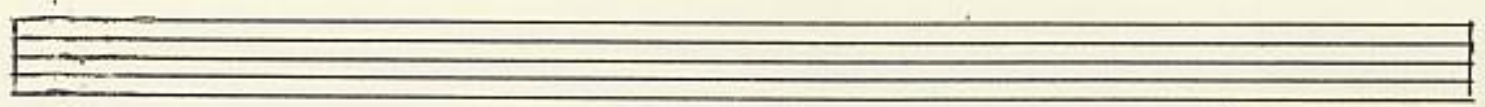

Fa-ther lives with-in his every daughter, every son. We're re-

la - ted by a u-ni-ver-sal her-i-tage of love That will

lead us to per - - fection in his Pa-ra-dise a - - bove.

2. God's the Father of the races, and of every mortal man,
And his Family extends through every nation, every land.
All the rainbow-colored children of this planet deep in space
Shall ascend through all the heavens and shall see him face to face.

3. From the founding of the earth and the beginning of the race,
God has led his children onward in this world of time and space,
But the age of Truth is dawning, and the heavens shall proclaim
That the Universal Family of God is our true name.

4. Oh, the Father has a plan for every life that he creates,
And it leads throughout the universal realm he permeates.
It's a plan that has a purpose without limit, without end,
And the children that pursue it are all family and friends.

5. From our humble life as mortals here beneath the sunlit sky,
We shall rise to greater glory in the Father's worlds on high,
And throughout the endless ages of a vast eternity,
We shall strive to serve our Father and his loving family.
