Instr. Intro.

1. Living Truth and Breath of Life, Leading home-ward, Guiding Light,

This is what must come to light: Men are sons of God.

Born up-on a world of space, Given joy and given grace,

Given Truth to find his place, Men are sons of God.

As the Son of Man came down, He came bearing man a crown,

Preach-ing Truth in every town. "Men are sons of God."

CODA: Men are sons of God.

SONS OF GOD (Cont.)

2. To the myriad spheres of life
Messengers have brought this light:
"Seek the Father, live aright,
You are sons of God."

As from son to son it goes,
Father's love-dominion grows,
Ceasing not till all do know
Men are sons of God.

When the Son of God appeared,
Love replaced what men had feared.
Living Truth the way has cleared:
Men are sons of God.

3. On a planet far in space
Men can find the Father's grace
And proclaim to all their race,
"You are sons of God."

As a babe in Palestine,
Truth shall grow into its prime,
Claiming victory over time:
Men are sons of God.

Now the Word of God has come,
Giving Truth to everyone.
All shall know; the time has come:
We are sons of God.

4. Ending turmoil, ceasing strife,
Men shall know the way of life.
These are words that give new life:
"You are sons of God."

Hushed the valleys, stars are bright,
Silent mountains guard the night,
Angels sing the Truth of Light:
"You are sons of God."
