January 24, 1957

Dear Dr. Sprunger,

We finished our first term examination on Urantia Doctrine last night at the Brotherhood School; now I can breathe more easily for a while. The meat of the examination was our concept of the Supreme Being, the Paradise Trinity, the nature and attributes of God, the universal gravity circuits, and the cosmology of the master universe.

That was a fine letter you wrote to Dr. Grauer. If he doesn't respond to it, I'll be a little surprised. As you said to me, he didn't take the book seriously. Probably, much like a person who believed in flying saucers and were to give me a book on them, I would be politely interested and would follow with a thumbing through of it and that would be all.

I was amused at Dr. Corpening last Sunday. He said, "Now don't expect an evaluation of this book this week." I replied that I would be much more pleased if I didn't hear from him for 6 months. He looked at me rather funny. I wrote him a long letter Tuesday to keep his interest up.

Four other Urantianites want to come over to hear you preach; so I have promised to take them over on the 13th of February. I believe that will be the last sermon of the present series.

I would sure like to hear if Dr. Grauer writes you. Well, I've got to get back to work.

Sincerely,

H. A. Farrer
