Rev. Meredith J. Sprunger
307 North Plymouth St.
Culver, Indiana

Dear Mr. Sprunger:

Thank you for your kind note of the 24th, and I am glad my letter reached you in time so that you may cancel the order that you had just sent Miss Rowley. I know from my own experience that you will find these small volumes so much easier to handle and convenient to carry about, as might be desired.

It seems to me that I certainly have sent you these sheets of "Suggestions for Presenting the Urantia Book" that were originally given me by Mr. Sadler, Jr., but in any event as I have several copies, I am enclosing another one herewith.

I have today a revised copy of your presentation of the Urantia Book from the Chicago office. It is very much like the ones you have sent me, and which I noted were in much smaller typewriter face than is usually used, so I wonder whether this was typed ^{in fact} on your order, or is it something that you had typed in the Chicago office? In any event, the latest revision that I have of your introduction has on the second page the notation, "October 1956", so I wonder whether this is really the one that is now approved and is being used, or is the one which is on a single page, both sides, that you have sent me and in small face typewriter type the latest and most approved by you?

I would like to get this straightened out in my own mind. The sheet written on both sides which is headed, "Excerpts Explaining the Urantia Book", is very interesting and very helpful, but this is not enclosed with the matter just sent me from Chicago. Kindly give me the benefit of your advice so I will have the correct understanding of the matter.

This copy from Chicago, which carries the heading introducing you, and giving your address at Culver, Indiana, is, you see, along the line that I had in mind of identifying the author of this introduction, but which you thought might be better to confine to direct correspondence or personal contact. In any event, whatever you approve is all right with me, and I just want to know which copy that is, so I can have some duplicates of that made if this one from Chicago is now the approved form. I suppose of course you have seen this copy. If not, I will send you mine. It doesn't contain the suggestions for reading which you have on the back of your sheet, and which seem to me very much worth while.

I thank you in advance for your reply.

Sincerely yours,

W. F. Harrah
