Rev. Meredith J. Sprunger  
307 North Plymouth St.  
Culver, Indiana

Dear Friend:

In accordance with my letter to you of February 8, I am enclosing the two copies of the Urantia Primer as requested in your general letter of the 6th.

I deeply regret personally that the legal complications on account of copyright prevent quite general distribution of this most remarkable review of the Urantia Book, and I do hope that some way can be arranged for the Foundation to bring out this matter in pamphlet form so that copy may go to every one who has or may receive the book.

It seems to us here, who have taken a deep interest in this book, that here is something that will not only give most helpful information, but arouse sufficient interest to result in the following up of study of the book as a whole. I wonder if you have already suggested this pamphlet idea to Sadlers. Surely the Foundation, owners of the copyright, would have every right and authority to issue a review and analysis of their own book.

I hope to have the pleasure of seeing you Friday noon, in accordance with note from our good friend, Hammerschmidt.

I might add that Rev. Meussling has expressed an interest in the book, and we are loaning to him one of our copies with the understanding that there is to be no hurry whatever about its return. He speaks very kindly of you personally.

Sincerely yours,

W. E. Harrah
