My dear Sprunger:

I read your communications, which you were good enough to send me, addressed to the Michiana Pastor's Study Group, Dr. Wagner, and to Rev. Kroehler, and am decidedly interested in this unusual and unexpected situation. I can, in a measure, appreciate how some individual layman might question the matter, but how a minister could raise a question is beyond me.

I am pleased that you have not dropped the issue, and it should not be, because certainly there is no violation of any Christian denomination to be broad-minded enough to read with interest or critically, a book of the character of the book Urantia.

I am sending your correspondence to our good friend Harrah, as I know he will be interested, and I would be pleased to have you keep me advised of further developments.

With best wishes.

Sincerely yours,

  
L. M. Hammerschmidt
