Nervous prostration is the kind of thing most nature ever put on the American people but you will never die of it. If you have nervous prostration you are not laboring with the fever. You can break more laws of nature and get away with it than you can get away with it. We have every remedy known and fully used and have failed to cure it. It is not a disease until it is advanced to a dangerous stage. Tuberculosis is decreasing, and the disease is being cured by the use of cod liver oil. While we are winning against it, we are losing out in the half-formed cases.

### WANT MORE HEALTH

Children who are always loved by their mothers and fathers, are never without a mother. The mother was not in which a child had received the kind of treatment. It was not only the part of the same, but the whole of the treatment and the school that he attended. Therefore they mistake the parents' neglect for their own neglect.

## SOMETHING ABOUT THE SPEAKER WHO WILL ADDRESS CHAUTAUEAU THURSDAY EVENING

One of the most timely, forceful and eloquent lecturers of the year is being delivered by Judge Marcus A. Kavanaugh. Mr. Kavanaugh is judge of the Superior court, and has taken a prominent part in the State for the reformers for which he stands in court procedure and law enforcement. In the recent meeting of 500 lawyers in Chicago, at which definite steps were taken toward reform in legal procedure, he was one of the principal speakers and leaders. The metropolitan papers have given entire pages to a description of him and his work.

During the months of June and July Judge Kavanaugh speaks at Chautauques. Everywhere he is received with enthusiasm and the message which he delivers is considered as of great importance.

Three years ago Judge Kavanaugh was sent to England as representative of the Industrial club, of Chicago, to study conditions along lines of legal procedure. Judge Kavanaugh is advocating a movement to obtain a modification of the laws of legal procedure, so as to simplify and make more effective, and effective, and secondly to strive to encourage the enforcement of the law as it exists. Behind this movement he hopes to see enlisted the sympathy and cooperation of the great body of lawyers. This can be accomplished by the sympathy of the general public.

The public is beginning to awaken to the importance of needed reforms along these lines.
