

West Palm Beach, Fla.
Jan 29th, 1977.

Dear Martha and Harold:

Bless you for writing to me at such length, and first of all I did not receive the book you sent last summer. Maybe I was in Mass where I spent 2 months with the gal I went to the Orient with.

I didn't want to write to you until I had finish the Book - You know I had not been going to the Forum until after you had the worst of your experier. But I am sold on the Urantia Book, and have spent so much time with Christie and Dr. down at Beverly Hills, and know how much time Dr. Spent rereading the Book, and am sure that he never tampered with it in any way. I am sure he did several things testing the way it came through. I also like harolds writin and wish I could be near you or come to some of your ESP meetings.

Mr. Cocking who lives here and I am in very close contact with - for we have a group that meet and read the Book - He has told me much of what happened to Bb Burton and I feel very sorry about that.

I have had a guest that was Erles Sec. before she married and we all loved her so much, and her husband passed away a year before my walter. Then she remarried an old Sweetheart and went on a world Cruis and he passed away last Sept. Oh Hum - such is life

My only close relative is here with me now from Calif. And I call her the old Apook, for she has been very physicic all her life. She is my ^{child} Bro of my father Brother. So of course my 1st Cousin. It is their home I go to in Calif.

I own a 3 bed room Apt and if you can and do come this way, I would of course want you to come and

see me. I have always loved being with you both.

I have so many letters to write and I am so Lazy - My Age I guess, - that I hate to get at it - but I have a streak on now and your is my 3rd letter to-day -- One of my MUSTS. and I am going to try and write to Bob and Ruth.

Thanks for sending me the Book and writing me and with my love -

Always your friend,

Grace
