Miss Nola Smith

CONFIDENTIAL

Dear Nola:

Thank you so much for sending me the three Medicare Kits. I think I will find this very useful in view of my recent hospital visit.

I'm very interested in your "Elast, Ltd." I'm sure this will be a wonderful success. I feel that the kit will be very popular. I have told the girls here in the office that if anyone is interested in it, the price to students of The BRANKIA Book is \$3.50, but to others the price is \$4.00.

Edith is not in very good health and I'm very concerned about it. She comes to work but I see her failing health-wise. Marion is doing fine and so is Helen. Marion had a wonderful trip to Israel but I have not had the chance to hear all the details. Hope to do so very soon.

Both Edna cannot please that she had seen you and called to tell me about it.

We would all like to see you, Nola. Why not make a trip to Chicago for a few days' vacation. Helen and I both have extra beds and would certainly love to have you come.

We are all sad about Herman. It doesn't seem right that Herman should go. I have depended on him for so many years for so many things and have missed him and Edna very much since they moved to Arizona. I hear from Edna and from one of her daughters who lives here so have kept in touch with the situation.

Personally, I'm feeling fine. Say "hello" to Edna when you see her. I will be writing her soon also.

Affectionately,

(Miss) E. L. Christensen  
Secretary

URANTIA

CONFIDENTIAL

Dear Christy:

Thank you for writing! You were a little ahead of me, for I had planned to write you this weekend. I heard you had been ill, and wanted to send you a Medicare Kit. I am sending three, with your order. If you don't need all, maybe one of the girls at headquarters will find it handy, (my compliments). I hope they haven't been having health problems, though.

Well, our dear friend, Herman, has stepped upward. I have been out to Edna's three or four times, and she is adjusting courageously.

Hannie, the Schell's daughter, was such a help to her mother. One day, she and I sorted a lot of books etc. that Edna didn't want to keep. I wanted to buy some of them, especially Urantia instructional materials etc., but Edna wouldn't take anything for them. So, I am sending a check for \$50 in Herman's name.

Also, I'm sending a couple other checks, and will appreciate your giving them to the proper persons.

"Slant, Ltd." is a one person publishing company (me), designed to bring in a little income I can devote lots and lots of time to the study and creation of Urantia Book teacher aids. I am still working two or three days a week, so don't have all the time I'd like to promote the business. I am getting a good response from the Kit, and have some other projects in the works.

Occasionally, I will be sending a small percentage of the profits to the Urantia organization, as soon as Slant gets off the ground. When Ruth Ream was here, I had a nice (but too short!) visit with her, together with her brother, Ray, and sister-in-law, Bernice, from Sun City. They, the McCulloms, have a nursing home in Illinois, and are quite active in Senior Citizens' doings in Sun City. Both were very interested in my Kit, and are going to promote it. I told her I would donate a percentage to some charity or non-profit organization. She wanted me to send it to the Urantia group because of Ruth's devotion to it. (Incidentally, if any of the Urantia friends are interested, just tell them the Kit is \$4, and I'll pay the postage plus the % to Urantia. It is advertised elsewhere with additional postage which, as you can see, is no small amount.)

Hello to Edith, Helen, Marian and the others. I always enjoy Virginia's and the Rowleys' visit out here.

Hope your health improves rapidly!
