Dear Dr. Heard:

Because I have been much stimulated by your books and believe that you have unusual spiritual insight, I feel led to introduce you to a most unusual book (see enclosure). After much thought, investigation, and evaluation, I am thoroughly convinced of its authenticity. It may be some time before people in general are prepared to accept it. But there is no doubt in my mind concerning its eventual acceptance by humanity.

I shall look forward to hearing from you after you have read the suggested seven hundred pages. I venture to guess you will look back and regard this as the beginning of the most important reading of your life.

Sincerely yours,

Meredith J. Sprunger
