Dear Harry:

It was nice visiting with you today. Before I neglect it again, I will send you a copy of the Urantia Book. I believe you have enough intellectual curiosity to read it and sufficient mental courage and religious maturity that it will not disturb you. For there is really nothing to be disturbed about. I would suggest that you reserve judgment until after you have read at least the section on the life of Christ.

After very careful and critical study I am convinced that this book is what it claims to be - new revelation. I know many such claims have been made in the past. All must be evaluated on their own merits. The quality and internal evidence of the Urantia Book is greater than that of any book I have ever read - including the Bible. After much deliberation, I seriously doubt that any human being could have produced it - in its totality. You may keep this copy for six months if you want to. Am enclosing return postage.

Would suggest this procedure: 1. Read the Introduction and Excerpts explaining the book. 2. Read the Urantia Primer (condensation) which I have worked out to get an over-all picture of the contents. 3. Read the papers that appeal to you. 4. Read the Life of Christ. 5. Read the rest of the book.

I have checked on every aspect of the book that I can think of and everything suggests its authenticity. I doubt if a more critical or more qualified group of men and women could have received the book than the original Urantia Forum. Maybe we will see you on vacation and discuss the book.

Cordially,
