

Dear Charles:

I am delighted to receive your nice letter today and hasten to send you a few study aids and Papers of interest. Will send more next time. I'm so glad you can meet fellow Urantia Book readers.

Soon I will go to Grants Pass Oregon for a URANTIA Conference there on the banks of the Rogue River. Then at night we go into the Auditorium of the nearby college and Vern Grimsley and his marvelous crew will hold forth. Then I go to Salt Lake City to meet with the first URANTIA Study group of Utah. Our big task is to see that there are thousands of study groups before this movement has any publicity.

My grand son is going to high school in Hamburg Germany. He was too young to be a typical exchange student but it is a similar program. He was just 16 in December. He is a fine scholar and I did mail the URANTIA Book to him for Christmas but he may be still too young to imbibe its great messages. I will give you his address in case you ever go into Hamburg. I hear the music is great there also.

David Early  
BEI U Hackbarth — 2000 Hamburg 60  
Schreyerring 47  
West Germany

He is living with a German couple who are teachers and now David speaks German so fluently that he had a hard time coming back to English when his parents called him at Christmas. He is so young and family-loving that nothing but extreme determination must have kept him there this year. He will be there until August. He must be terribly lonely. I truly hope that someday he will love the URANTIA Book as I do.

Yes, your plans sound so thorough and worthwhile. All of young people who had dropped out of school, read and studied the Book and are now going back to college to get their degrees. We have 5 here who just did this.

With warm personal regards,

*Julia Fenderson*
