Dear Charles:

Welcome to the ever-growing group of Urantia Book readers. Isn't it a joy, a privilege almost beyond our realization to actually have this Book in our hands with all of its great truths?

I have been reading these Urantia Papers more years than you have lived on earth and yet they continue to be ever-expanding and new truths keep coming from careful study. I would love to send you some study materials if you would care to have them.

A dear friend of mine, Rose Schweikert who lives in Carson City, Nev. is translating the Book into German. So far it is just a labor of love and she does a page or so each day. What a colossal task! She is now up to page 71. Of course it must someday take a team of several and she is hoping to find one. She has already been to Chicago and met with Christy and has told them she will just go along on her own until others are found.

Do you speak German? Do you know any there who speak the two languages and might be interested in the Book?

Please do write to me and tell me where you are from in the United States? How long will you be in Germany?

I read the Papers in Chicago and of course Christy and the group there are my dear friends. Then I moved to Los Angeles and have been very active here in study groups and in our Society here. I have traveled a great deal in my work as Field Representative of this Urantia Movement. Wherever interest is expressed I try to go there and help organize a study group. Had a marvelous time with the beautiful group in Alaska, Hawaii and then Australia. Do you feel there would be any interest in Germany?

I would be so delighted to hear from you. Please do write.

Much love, joy and peace.
