

JESUSONIAN® FOUNDATION

April 19, 1989

Dear Friends:

Enlosed you will find a copy of the map of The Evolution of Life on Earth and it's associated *Urantia Book* references. Also, you will find a free post card of the Master Universe.

Once again we need your help!!

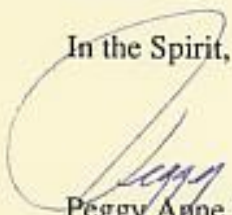

1. Is the Evolution chart correct? What is wrong with it? Could you or your group please do a study of it and let us know what you find? We would appreciate it if you would write on the sheets themselves and return them to us by the end of May.

There is an artist who is planning to do a pictorial history of evolution. He is a suburb artist and wants the end product to be accurate by using the knowledge found in *The Urantia Book*. From long experience we know that group wisdom and insight are the only way to achive the quality required for a production of this type. So **once again we need your help.** Thank you for your interest and the generous contribution of your loving help and your time.

2. Do you know of anyone that has stories, poems, coloring books, or etc. for children. We have been receiving numerous requests to provide something for our young people based upon the wonderous teachings found in the revelation. If anyone you know has children's material please, contact us here at Jesusonian. We would consider printing, publishing, distributing, or whatever else is needed to fill this void within *The Urantia Book* secondary literature. The hope for tomorrow lies with the next generation and there is no better time than now to start them on the path of knowledge of the teachings of *The Urantia Book*.

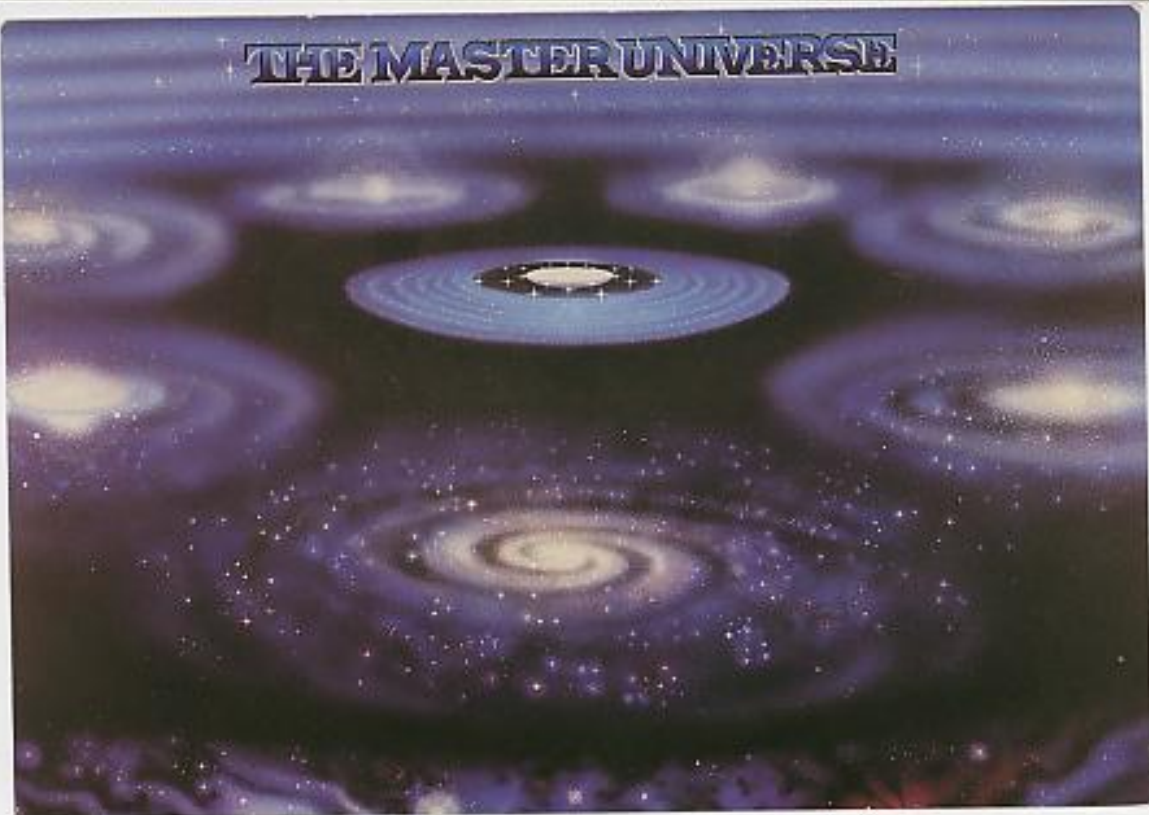

Thank you again for your help. May our Heavenly Father bless you as you go about his work.

In the Spirit,

Peggy Anne Douglass,
Office Manager

THE MASTER UNIVERSE

The Master Universe

This conceptual painting depicts the enormous inhabited and uninhabited universes as they currently exist. Our world, Urantia, is one of trillions of inhabited planets. We are in the seventh superuniverse whose capital flourishes near the center of the Milky Way Galaxy.

You live in an inhabited, intelligent, and loving universe says *The Urantia Book*.

Love is
the
cornerstone
of the
universe
