The Good Cheer Catalog

The Good Cheer Catalog is part of the Jesusonian Foundation, a non-profit organization devoted to the dissemination of the teachings of The Urantia Book. We work to serve the family reader-believers through seven primary functions:

- We strive to make The Urantia Book available to "whosoever will" be interested in reading it and help to make books available to those who cannot afford their own.
- The Urantia Book inspires people to create beautiful works and study aids of their own and we offer a way for them to share these works through our sales catalog, The Good Cheer.
- To help others to share, understand, and love The Urantia Book we publish many outreach and study aids.
- We serve and assist other Urantia Book organizations in many ways such as Booth Outreach, the Area Coordinators program, The Study Group Directory, book subsidies, outreach development, and other special projects.
- We are constantly exploring new, creative, and effective ways of sharing The Urantia Book with individuals and groups and welcome all suggestions.
- We also must take care of a million and one business details from bookkeeping to window washing and our small (two full time and one part time) staff tries to do it all with a smile.
- We believe in our organization's good works and want to make a difference. We therefore dedicate our efforts to Jesus, in sincere hope that our world will someday reach it's goal of Light and Life.

THE URANTIA BOOK

... may be the world's best kept secret. Why? We're not sure. We found it... and are so thankful that we are dedicated to letting others know the joy that its teachings bring. First published in 1955, The Urantia Book is a spiritual feast for hungry souls. Its unparalleled cosmology eloquently coordinates and illuminates religion, philosophy, science and history. The last 800 pages are undoubtedly the most sublime and thrilling account of Jesus' life and teachings ever told. Sounds too good to be true? That's what everyone thinks at first, but when it comes to The Urantia Book, reading is believing.

Part One begins with God the Universal Father (His nature and relationship to each individual) and provides a deeper understanding of both the spiritual and physical organization of creation.

Part Two focuses on our area of creation, explains our many celestial helpers, gives a detailed account of life after death, and the Lucifer rebellion (which enables us to better understand why our world is so troubled.)

Part Three, the history of Urantia, another name for Earth, includes the evolution of civilization, government, and religion, as well as marriage and family life. The details and significance of Adam and Eve and Melchizedek further complete our historical knowledge. The presentation of the Divine Spark of God that lives within each individual is one of the major concepts presented.

Part Four lifts Jesus out of the context of the Christian religion and portrays his life and teachings in a way that is inspiring to people of all faiths and all walks of life. A group of celestial historians give us the richly detailed and profoundly moving account of Jesus' life in chronological order from birth, through childhood, his school years and adolescence, his adult years including his personal and public ministry work, his death, resurrection, an account of the events which were shaped by his followers, and concludes with the Paper entitled, "The Faith of Jesus."

Readers of The Urantia Book experience profound transformation, great rewards, and an uplifting desire to be their spiritual best; to actually live in partnership with God.

THE URANTIA BOOK BASICS by Mary Ebben

The Urantia Book Basics is an overview guide for new readers and young adults. The author's intention is to provide an easy to read, general understanding of the major concepts presented in The Urantia Book in order to encourage others to read "the big blue book". This was accomplished by condensing 146 Papers, designing a chronological format, introducing new terms only as they are defined, noting the Urantia Papers and pages for further reading and including questions, ideas and projects at the end to promote study group participation. "Basics" seeks to serve as a stepping stone for introducing those who believe they lack the time, intelligence, or depth to read The Urantia Book.

THE LIFE AND TEACHINGS OF JESUS

by L. Preston Thomas

Quality binding with gold leaf stamping

"The Life and Teachings of Jesus" is a restatement that is true to both the wording of the Bible and the teachings of The Urantia Book. Five years in the making, this 256 page (8½" x 11") book was created by putting together appropriate verses from the New Testament gospels of Matthew, Mark, Luke, and John. Guided by The Urantia Book, these Bible verses are combined to depict Jesus' life and teachings in chronological order from birth through death and resurrection. It is an excellent way for Urantia Book readers to better know and appreciate the truths of the Bible. For Christians it is the return to Jesus' original gospel of the kingdom and our next step in religious evolution.

THE FAMILY MEETING HANDBOOK

by Robert Slagle, Ph.D.

Modern family life hangs in the balance between destructive pleasure mania and the lures of a higher civilization. The revelators saw this crisis and gave us guidance: Family love is the corner stone of civilization and its only hope of survival; the noblest of all human achievements is the raising of a good family; and our society would greatly improve if we used family councils. The Andites used family council meetings and so did Jesus. If you've not had family council meetings, you can start now. Practicing this proven step by step system for increasing family teamwork will bring lasting positive results. Best yet, it works for all types of families, including single parent and shared custody families.

CHRIST OR CHAOS? THE EVOLUTION OF A REVELATION

New Product

by Kenneth T. Glasziou

An evolutionary jump—one of revolutionary significance—took place in man's perception of God with the appearance of Jesus Christ in human history. Thus, author Kenneth Glasziou presents the impact of Jesus' message on Old Testament theology, on then-prevalent philosophies, and upon the daily lives of persons whom he encountered. Mr. Glasziou observes that Jesus' message—that reality is a gracious and compassionate God—was to theology what a unified field theory would be to physics. *Christ or Chaos?* relates how the momentous developments evolved out of the life of Jesus.
