# The JESUSONIAN FOUNDATION

The Jesusonian Foundation is a non-profit organization devoted to the dissemination of the teachings of The Urantia Book. We have just two full time employees working very hard for the revelation. We need your help to continue to serve the growing family of reader believers in several important ways:

- ✦ To make The Urantia Book available to those who can't afford it through book subsidies and donations while continuing to provide discounted books to believers, making it possible for them to give more books away.
- ✦ Because The Urantia Book inspires people to create beautiful works and study aids of their own we would like to continue to offer a way for them to share these works with the larger Urantia community through The Good Cheer Catalog.
- ✦ To help others to share, understand, and love The Urantia Book by publishing useful and effective outreach and study aids, with original Urantian art. Some of our wonderful publications, like the full color Introduction, are gone. We give out thousands of brochures to interested people every year. Your donation can help us to keep these great outreach tools in print and available.
- ✦ To continue to serve the world Urantia community with programs such as The Good Cheer Catalog, booth outreach, conference stores, study group services, the Study Group Directory, book donations, internet ministry, world wide dissemination, outreach development, and many other special projects.
- ✦ To continue to develop new methods of outreach and new tools for dissemination.
- ✦ To continue to hold up the teachings of Jesus as our primary mission and strive to make his teachings available to a world that craves to know him as we do.

We believe in our organization's good works and want to make a difference. We therefore dedicate our efforts to Jesus, in sincere hope that our world will someday reach it's goal of Light and Life.

*Your donation is essential, appreciated, deductible, and used 100% to further the Revelation. Thank you in advance for your support!*

# URANTIA BOOKS

The Urantia Book may be the world's best kept secret. Why? We're not sure. We found it . . . and are so thankful that we are dedicated to letting others know the joy that its teachings bring.

First published in 1955, The Urantia Book is a spiritual feast for hungry souls. Its unparalleled cosmology eloquently coordinates and illuminates religion, philosophy, science and history. The last 800 pages are undoubtedly the most sublime and thrilling account of Jesus' life and teachings ever told.

Part One begins with God the Universal Father (His nature and relationship to each individual) and provides a deeper understanding of both the spiritual and physical organization of creation.

Part Two focuses on our area of creation, explains our many celestial helpers, gives a detailed account of life after death, and the Lucifer rebellion (which enables us to better understand why our world is so troubled).

Part Three, the history of Urantia, another name for Earth, includes the evolution of civilization, government, and religion, as well as marriage and family life. The details and significance of Adam and Eve and Melchizedek

further complete our historical knowledge. The presentation of the Divine Spark of God that lives within each individual is one of the major concepts presented.

Part Four lifts Jesus out of the context of the Christian religion and portrays his life and teachings in a way that is inspiring to people of all faiths and walks of life. This account includes a profoundly moving account of Jesus life in chronological order from birth, through childhood,

adolescence, his adult years including his personal and public ministries, death and resurrection. Readers of The Urantia Book commonly experience a profound transformation, and an uplifting desire to be their spiritual best, to actually live in partnership with God.

### DIVINE LEGACY

*By Behz Sarmast*

Behz Sarmast has spent years interpreting ancient Sumerian writings, one of which is called Enki and the New World Order, a narrative about gods who "from heaven to earth came." Using his knowledge of Farsi, which has its roots in the age-old Sumerian language, he has discovered that the legend of Enki and his mate Ninursag is none other than a derivation of the mission of Adam and Eve as described in the Urantia Papers. How exciting to hear, for the first time, portrayals of Adam and Eve as told by ancient Sumerians, with amazing parallels to the Urantia Revelation. This is undoubtedly some of the most important historical research ever done by a Urantia Book reader. Recorded during a live presentation in Boulder, this video is a must see for all serious students of The Urantia Book.

### INDEX TO THE URANTIA BOOK

Compiled by Kelli Cupp and Harry McMullan

"Even the discoveries of science are not truly real in the consciousness of human experience until they are unraveled and correlated, until their relevant facts actually become meaning through encirclement in the thought streams of mind." UB (102:2:5)

The Index to the Urantia Book is just such a book to unravel and correlate passages on topics in The Urantia Book! This Index is a MUST for the serious UB reader. The Index is unlike the concordex, or concordance in that typically the Index will refer one to other passages in the Urantia Book to give broader possibilities to the topic being researched (ie: courage. See also adjutant mind-spirits: courage; self-confidence). The present volume is a work in progress and will be revised and improved with your help. Until the next printing there are a limited quantity of these fine resource books available. Order yours today!

### THE LIFE AND TEACHINGS OF JESUS

by *L. Preston Thomas*

"The Life and Teachings of Jesus" is a restatement that is true to both the wording of the Bible and the teachings of The Urantia Book. Five years in the making, this 256 page (8" x 11") book was created by putting together appropriate verses from the New Testament gospels of Matthew, Mark, Luke, and John. Guided by The Urantia Book, these Bible verses are combined to depict Jesus' life and teachings in chronological order from birth through death and resurrection. It is an excellent way for Urantia Book readers to better know and appreciate the truths of the Bible. For Christians it is the return to Jesus' original gospel of the kingdom and our next step in religious evolution.

## THE FAMILY MEETING HANDBOOK

by Robert Slagle, Ph.D.

Modern family life hangs in the balance between destructive pleasure mania and the lures of a higher civilization. The revelators saw this crisis and gave us guidance: Family love is the corner stone of civilization and its only hope of survival; the noblest of all human achievements is the raising of a good family; and our society would greatly improve if we used family councils. The Andites used family council meetings and so did Jesus. If you've not had family council meetings, you can start now. Practicing this proven step by step system for increasing family teamwork will bring lasting positive results. Best yet, it works for all types of families, including single parent and shared custody families.

Over the years we have learned that Urantia Book readers are incredibly diverse, coming from all walks of life and all religious backgrounds. Because there is no "official" interpretation of the book, and because we want to serve the entire Urantia community, we will not exclude any work from our catalog so long as it has The Urantia Book as its primary inspiration. Rather do we open our arms to all who would share this magnificent revelation in their own way and as the spirit moves them. The interpretations, speculations, assertions or beliefs of any work offered in The Good Cheer Catalog are not necessarily that of the staff or officers of Jesusonian Foundation or any other Urantia organization.

**The Good Cheer Catalog** is the primary source for secondary works to The Urantia Book.

Good Cheer is part of the Jesusonian® Foundation and is unaffiliated with Urantia® Foundation.

Except for Jesusonian publications, the items in this catalog are part of a consignment program.
