Dear Sirs:

April 30, 1961

In your April 15th Quarterly News Letter it was mentioned at the last that Urantia Brotherhood School text books are available. Could you please send me a list of these books available, as well as the selling prices? I believe I may be interested in purchasing several.

I plan to enter the Congregational ministry and am sure that these books would supplement my reading of the Urantia Book.

Thank you very much. Please send the list to:

P.S. Is any more information available on how the Urantia Book came to be? I read something about this in the appendix of Dr. Sadler's book The Mind at Mischief. In this book he said he would be able to make more of the story public at a later time--after the death of the individual involved. What of this?
