

SPIRITUAL PIONEERING 1974

SPRING
LECTURE
SERIES

April 23rd VERN BENNOM GRIMSLEY

Mr. Grimsley is an internationally known radio speaker who's dynamic message, the Fatherhood of God and the Brotherhood of man, is currently beamed into 10 nations by 50 radio stations. Perhaps you've heard his strong and articulate voice before at the entrance to Sproul Plaza at U.C. Berkeley. He has a deep concern for the development of more positive and spiritually oriented attitudes among the students. Mr. Grimsley, who perceives mankind's future entrance into a God-centered "world family" will be speaking on the subject, "THE COMING WORLDWIDE SPIRITUAL RENAISSANCE."

April 23rd VERN BENNOM GRIMSLEY

President of the non-denominational Family of God Foundation, a former Phi Beta Kappa in philosophy, and a former psychological researcher with the National Science Foundation.

The most significant single frontier we in America face in the mid 1970's is spiritual in nature. We have spent nearly 200 years building up a complex and wondrous material and social structure; one that has its place assured in this planet's history books . . . but as we move into our third century we must confess to a general loss of direction and integrity.

It is unrealistic and naive to place the blame with a few top level leaders—for we must, then, blame them for *all* injustice, selfishness and human degradation every day on every street and in every home. A great part of the problem—and the solution—lies with you and me.

The coming 10 years call on the common man to realize the need of a re-pioneering of himself and of his world. The wilderness, one of ignorance, will be pushed back by those of us who have the faith and courage to stand, even against the general consensus, for the highest of spiritual and moral principles. If our eyes are open, we stand on the threshold of a remarkable new age. *To this time, this precious chance and to those who are willing to take it we dedicate the thoughts and experiences of the speakers in this series.*

April 30th BISHOP DONALD TIPPETT

San Francisco Bay Area Bishop of the United Methodist Church (retired 1968), formerly President of the Council of Bishops of the United Methodist Church.

May 7th PROFESSOR HARDIN B. JONES

Assistant Director of the Donner Laboratory at U.C. Berkeley, Associate Director of the Institute of Human Development at U.C. Berkeley, a world famous drug effects researcher, and scientific advisor to Billy Graham.

April 9th PROFESSOR JAY STILLSON JUDAH

Librarian of the Graduate Theological Union, and director of its branches, Professor of History of Religions, and the former President of The American Theological Library Association.
