"Actively prepare for the Third World War. Tell people you don't know when because we don't know when. Get maps of escape routes, store food and water. Know where fallout shelters are or build them as needed. This one will touch American soil. Be not anxious and fear not, but be prepared."

Tuesday, October 11, 1983

1. Is World War III inevitable?

"Yes, unless we decide to send an emergency son on an emergency mission. This is under active discussion. This is our view as of Tuesday morning, October 11, 1983."

2. Is nuclear holocaust inevitable?

"No."

3. Should there be any specific organizational action undertaken as a consequence of this information by URANTIA Foundation and URANTIA Brotherhood?

"Only what you have already agreed and discussed. You have been well led in your deliberations." (to tell leaders)

Where in this country is it safe?

"The Institute in Clayton is projected to be in the top 10% functional/protectable locations, given current data."

What about the Chicago headquarters?

"533 Diversey Parkway is in the top 10% of functional locations, but in the bottom 10% of protectable locations."

This data is released under orders of Norson.* Maintain the offices in Chicago and the mailing address, but make contingency plans for emergency headquarters in Clayton."

4. How broadly should this warning be spread?

"To the real leaders only. They selectively inform others."

5. Should there be an official notification by URANTIA Brotherhood?

"No."

or beyond?

"No."

6. Should we be concerned with the safety of individuals functioning in official leadership roles?

"Yes."

Who? Name names.

"You know their names."

7. Will there be additional warning?

(Four answers from four individuals)

1. "We know the answer."
2. "Be not anxious; fear not."
3. "You may not know what the future holds, but you know who holds the future."
4. "Drop the subject."

(The next day a more detailed answer was given as follows.)

8. How much advance warning will we have?

"Maybe none. Study the news daily. Rely on radio over television; keep fresh radio batteries on cold storage and tube radios tuned to all news stations. Concerning timing: As difficult as it is for mortal comprehension, there is much we don't know concerning these matters. We too can only speculate for there is much we cannot answer. Be not anxious, fear not, but be prepared, and we love you, all of you. Proceed as if this was your last warning."

*Norson is a Melchizedek installed on Urantia as personal regent to the vicegerent planetary prince (Machiventa Melchizedek) on August 21, 1950, according to a communication received by the contact commission on that date. Norson is not mentioned in **The URANTIA Book**.
