

THE FAMILY OF GOD FOUNDATION, INC.
BOX 347, BERKELEY, CALIFORNIA 94701

5 August 1984

Dear Charles,

With your resignation from work with the Family of God Foundation, a period of your life closes. The one that is opening will doubtless contain still more of growth and satisfaction, and yet it is appropriate to pause to savor the best of the memories of the recent past.

Our personal friendship goes back to wonderful Kentucky, which neither of us can or wants to get out of his blood. Corresponding during your years in Germany, then rooming together during the first several months of your time in Berkeley, and talking about so many things--I cherish these memories, treasures for my soul. Your fine questions again and again helped me see something; and to your soul I turned again and again with my own questions.

We remember you as a gentle and keen brother whose work was excellent and whose talents are surely destined to find a worthy outlet. Our love goes beyond memories, Charles, and looks forward to the opportunities the future will bring for continued friendship. May you ever delight in the truths of the Father's family!

*Forward as I wish God
can carry*

*My dear friend,
May the Father richly
bless your life! You
will be hearing from me.
I owe you a letter!
Take care!

Munk I turn!

*Best wishes
and our Father's
rich blessings,
Francis*
