Dear Friends:

Thank you for the information you sent concerning the Boulder School.

I cannot foresee that I would ever be able to study at your school. My contributions are so small that I prefer to send them all to the Urantia Foundation in Chicago for the sake of simplicity.

Although I am reluctant to add to your expenses by requesting brochures, I am also reluctant to be dropped from your mailing list because I am especially interested in two of your projects, the Study Aids for study groups (Would this include anything usable by a single, lone reader?) and the curriculum "Understanding Religion" for use in public schools. I would be interested in the accomplishments of these project workers.

Thank you again for the information.

Yours sincerely,
Grace Boyles
(formerly Grace Tate)
