904 Detroit Street
Flint, Michigan 48503

Dear Dick,

It's good to hear from you again. Thank you for your letter and your contribution to the Planetary Prints. I have just finished writing a cover story on the School for the Planetary Prints, to be accompanied by a photograph of the students in the first class (as well as myself). As soon as it is published, you will most assuredly be receiving a copy.

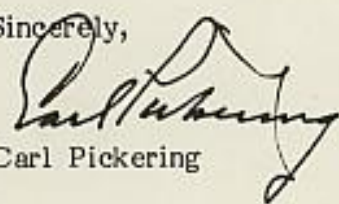

The School is prospering, and enrollment is expected to double this fall. We have not as yet determined the seminar schedule for the fall, but it should prove to be exciting. We have had some excellent seminars so far, and each seminar is being videotaped in color.

I know of no employment network designed to aid students of The URANTIA Book, but students of the School are being employed by other readers in this area whenever possible.

The work on a computerized revision of the Concordex has not yet begun. Clyde Bedell has been unable to sell his home in California, and we are uncertain as to when he will yet be able to move to Boulder.

Do please let us hear from you now and then. I wonder if you might be able to visit us sometime?

Sincerely,

Carl Pickering

Carl Pickering
Secretary, The Boulder School
1622 18th Street
Boulder, Colorado 80302

Dear Carl,

Thank you for sending me a copy of the Planetary Prints. I was particularly interested in Jim McNelly's stated interest in the scientific aspects of the URANTIA Book as that is an area of interest to me too.

Hope the work on the computerized revision of the Concordex is going well.

It would be great to be on the mailing list to receive the newsletter and some of your other mailings, and although I hope I will be able to contribute more in the future, for now here is \$5.00 to help a little.

Do you have any brochures on the school that you could send?

Thanks again.

Sincerely,

Richard Strickland

P.S. It has occurred to me lately that if I were in a position to employ others I would want them to have a sincere respect for the teachings of the URANTIA Book. Is there any employment network along these lines where work skills and availability etc. are kept and considered?
